PILLAR 3 REPORT FOR THE FINANCIAL PERIOD ENDED 30 SEPTEMBER 2017

Overview

The Group's Pillar 3 Disclosure is governed by the Bank's Pillar 3 Disclosure Policy. This policy outlines the minimum disclosure standards, approach for determining the appropriateness of information disclosed and internal controls over the disclosure process.

During the financial period, Alliance Financial Group Berhad ("AFG"), the holding company of the Bank has completed its corporate reorganisation exercise whereby the listing status of AFG was assumed by Alliance Bank Malaysia Berhad ("ABMB or the Bank") with effect from 26 September 2017. Accordingly the comparative figures of the Group was restated, where applicable, to reflect the completion of the corporate reorganisation exercise (as disclosed in Note B16 of the Unaudited Statements of Financial Position as at 30 September 2017):

- (i) AFG subscription of RM100,000,000 new ABMB Shares at the issue price of RM1.00 per share;
- (ii) The bonus issue by the Bank of RM651,588,886 new ABMB Shares to AFG, after taking into consideration the RM100,000,000 new ABMB Shares issued pursuant to AFG Subscription;
- (iii) The transfer of AFG and its non-banking subsidiaries to the Bank is accounted for as an internal reorganisation within the AFG Group. Consequently the assets, liabilities and equity of AFG Group, at their carrying amounts, are included in the consolidated financial statements of the ABMB Group.

The comparative figures was restated, where applicable, in items 2.1 (a), 2.2, 2.3, 3.1, 3.4 and 3.5 of the report.

1.0 Scope of Application

The Pillar 3 Disclosure was prepared on a consolidated basis and comprises information on Alliance Bank Malaysia Berhad ("the Bank"), its subsidiaries, associate companies and joint venture. The Group offers Conventional and Islamic banking services. The latter includes accepting deposits and providing financing under Shariah principles via the Bank's wholly-owned subsidiary, Alliance Islamic Bank Berhad.

The basis of consolidation for the use of regulatory capital purposes is similar to that for financial accounting purposes. Investments in subsidiaries, associate companies and joint venture are deducted from regulatory capital.

There were no significant restrictions or other major impediments on transfer of funds or regulatory capital within the Group.

There were no capital deficiencies in any of the subsidiaries of the Group as at the financial period end.

The capital adequacy information was computed in accordance with BNM's Capital Adequacy Framework. The Group has adopted the Standardised Approach for credit risk and market risk; and the Basic Indicator Approach for operational risk.

2.0 Capital

In managing its capital, the Group's objectives are:

- (i) To maintain sufficient capital to meet the regulatory capital requirements as set forth by BNM;
- (ii) To maintain sufficient capital to support the Group's risk appetite and facilitate future business growth; and
- (iii) To meet the expectations of key stakeholders, including shareholders, investors, regulators and rating agencies.

In line with this, the Group aims to maintain capital adequacy ratios that are above the regulatory requirements, while balancing shareholders' desire for sustainable returns and prudential standards.

The Group carries out stress testing to estimate the potential impact of extreme but plausible events on the Group's earnings, balance sheet and capital. The results of the stress tests are to facilitate the formulation of contingency plan(s) where warranted. The results of the stress tests are tabled to the Group Risk Management Committee for approval.

3.0 Credit Risk (contd.)

3.4 Assignment of Risk-Weights for Portfolio Under the Standardised Approach (contd.)

For the purpose of determining counterparty risk-weights, the Group uses external credit assessments from Rating Agency Malaysia ("RAM"), Malaysian Rating Corporation ("MARC"), Standard and Poor's ("S&P"), Moody's, and Fitch. In the context of the Group's portfolio, external credit assessments are mainly applicable to banks/financial institutions and rated corporations. The Group follows the process prescribed under BNM's Capital Adequacy Framework to map the ratings to the relevant risk-weights. The ratings are monitored and updated regularly to ensure that the latest and most appropriate risk-weights are applied in the capital computation.

The following tables show the rated credit exposures according to ratings by approved Eligible Credit Assessment Institutions ("ECAIs"):

Note:

The foreign currency impact on NII/EV are considered insignificant as the exposure is less than 5% of the respective total Banking Book assets and liabilities.

7.0 Shariah Governance Disclosures

Shariah Non-Compliance Risk arises from the risk of failure to comply with Shariah rules and principles as determined by Shariah Advisory Council of Bank Negara Malaysia and Alliance Islamic Bank's (AIS) Shariah Committee. To manage the risks, AIS has adopted the following guiding principles:

- (i) A sound Shariah Compliance Framework which governs the operations of AIS and outlines the roles of key functionalities within AIS, including but not limited to the Shariah risk management process. This is in line with the Shariah Governance Framework issued by BNM.
- (ii) The Board of Directors, assisted by the Shariah Committee and Senior Management, provide oversight on Shariah compliance aspects of AIS' overall operations. This amongst others include:
 - Oversight and implementation of the Shariah Compliance Framework.
 - Regular review of non-Shariah compliant income and issues.
 - Addressing non-Shariah compliance findings.
 - Ensuring compliance with regulatory and internal requirements including disclosures.
- (iii) Appointment of qualified Shariah Committee member who also serves as AIS' Board member; serving as a 'bridge' between the Board and the Shariah Committee.
- (iv) Ongoing Shariah reviews and training to raise risk awareness and ensure compliance to Shariah rules and principles. This includes:
 - Regular assessment on Shariah compliance in the activities and operations of AIS. The findings of the review are reported to the Shariah Committee for deliberation and decision.
 - Performing research and studies on Shariah issues, including providing day-to-day Shariah advice and consultancy to relevant parties.
 - Conducting Shariah-related training and ongoing engagement with relevant parties to raise awareness on Shariah non-compliance risk.
- (v) Escalation and reporting processes of non-Shariah compliance income and issues governed through designated escalation channels, which include the Board and the Shariah Committee.

Non-Shariah Compliant Income And Events

During the financial period, there was no Shariah non-compliance event detected from the ongoing reviews of the Bank's operational processes.
