The Condensed Interim Financial Statements should be read in conjunction with the audited financial statements of the Group and the Bank for the financial year ended 31 March 2022.

Explanatory Notes

PART A - Explanatory Notes Pursuant to Malaysian Financial Reporting Standard ("MFRS") 134 and Guidelines on Financial Reporting Issued by Bank Negara Malaysia ("BNM")

A1 Basis of Preparation

The unaudited condensed interim financial statements for the financial period ended 31 December 2022 have been prepared under the historical cost convention, except for financial assets at fair value through profit or loss, financial investment at fair value through other comprehensive income, derivative financial instruments and financial liabilities designated at fair value through profit or loss that are measured at fair value.

The unaudited condensed interim financial statements have been prepared in accordance with MFRS 134 "Interim Financial Reporting" issued by the Malaysian Accounting Standards Board ("MASB"), Chapter 9.22 of Bursa Malaysia Securities Berhad's Listing Requirements and should be read in conjunction with the audited annual financial statements of the Group and the Bank for the financial year ended 31 March 2022. The explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group and Bank since the financial year ended 31 March 2022.

The significant accounting policies and methods of computation applied in the unaudited condensed interim financial statements are consistent with those adopted in the most recent audited annual financial statements for the financial year ended 31 March 2022 and modified for the adoption of the following accounting standards applicable for financial periods beginning on or after 1 April 2022:

- Amendment to MFRS 16 "COVID-19-Related Rent Concessions beyond 30 June 2021";
- · Amendments to MFRS 3 "Reference to the Conceptual Framework";
- · Amendments to MFRS 116 "Proceeds before Intended Use";
- Amendments to MFRS 137 "Onerous Contracts Cost of Fulfilling a Contract";
- Annual Improvements to MFRS 9 "Fees in the 10% Test for Derecognition of Financial Liabilities";
- Annual improvements to MFRS 1 "Subsidiary as First-time Adopter"; and
- Annual improvements to Illustrative Example accompanying MFRS 16 Leases: Lease Incentives.

The adoption of the above standards, amendments to published standards and interpretations to existing standards did not give rise to any significant impact on the financial statements of the Group and the Bank.

The preparation of unaudited condensed interim financial statements in conformity with the Malaysian Financial Reporting Standards requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed interim financial statements, and the reported amounts of revenues and expenses during the reported period. It also requires Directors to exercise their judgement in the process of applying the Group's and the Bank's accounting policies. Although these estimates and judgement are based on the Directors' best knowledge of current events and actions, actual results may differ from those estimates.

A2 Auditors' Report on Preceding Annual Financial Statements

The auditors' report on the audited annual financial statements for the financial year ended 31 March 2022 was not qualified.

A3 Seasonality or Cyclicality of Operations

A30 Segment Information

The following segment information has been prepared in accordance with MFRS 8 Operating Segments, which defines the requirements for the disclosure of financial information of an entity's operating segments. The operating segments results are prepared and provided to the chief operating decision maker based on the Group's internal management reporting reflective of the organisation's management reporting structure.

Based on the results presented to chief operating decision maker, funds are allocated between segments and intersegment funding cost transfers are reflected in net interest income. In addition to the operating segments, the segment information disclosed also includes inter-segment eliminations. Transactions between reportable segments are eliminated based on principles of consolidation as described in accounting policy. Intercompany transactions, balances and unrealised gains and losses on transactions between Group's companies are eliminated in intersegment eliminations.

The Group is organised into the following key operating segments:

(i) Consumer Banking

Consumer Banking provides a wide range of personal banking solutions covering mortgages, term loans, personal loans, hire purchase facilities, credit cards and wealth management (cash management, investment services, share trading, bancassurance and will writing). Consumer Banking customers are serviced via branch network, call centre, electronic/internet banking channels, and direct sales channels.

(ii) Business Banking

Business Banking segment covers Small and Medium Enterprises ("SMEs"), and Corporate and Commercial Banking. SME Banking customers comprise the self-employed, and small and medium scale enterprises. Corporate and Commercial Banking serves the public-listed and large corporate business customers including family-owned businesses. Business Banking provides a wide range of products and services including loans, trade finance, cash management, treasury and structured solutions.

(iii) Financial Markets

Financial Markets provide foreign exchange, money market, hedging and investment (capital market instruments) solutions for banking customers. It also manages the assets and liabilities, liquidity and statutory reserve requirements of the banking entities in the Group.

(iv) Stockbroking and Corporate Advisory

Stockbroking and Corporate Advisory cover stockbroking activities and corporate advisory which includes initial public offering, equity fund raising, debt fund raising, mergers and acquisitions and corporate restructuring.

(v) Others

Others refer to mainly other business operations such as alternative distribution channels, trustee services and head office.

A31 Capital Adequacy

BNM's Transitional Arrangements for Regulatory Capital Treatment of Accounting Provisions took effect on 9 December 2020. This allows the Group and the Bank to add back a portion of Stage 1 ("S1") and Stage 2 ("S2") provisions with an "add-back factor" to the Common Equity Tier I ("CET I") capital from Financial Year 2021 to Financial Year 2024. The Group and the Bank have sufficient capital under both conditions with or without the Transitional Arrangement.

The capital adequacy ratios with and without transitional arrangements for the Group and the Bank are as follows:

A32 Fair Value Measurements

(a) Determination of fair value and fair value hierarchy

MFRS 13 Fair Value Measurement requires disclosure of financial instruments measured at fair value to be categorised according to a hierarchy of valuation techniques, whether the inputs used are observable or unobservable. The following levels of hierarchy are used for determining and disclosing the fair value of the financial instruments:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group and the Bank recognise transfers between levels of the fair value hierarchy at the end of the reporting period during which the transfer has occurred. The fair value of an asset to be transferred between levels is determined as of the date of the event or change in circumstances that caused the transfer.

(i) Financial instruments in Level 1

The fair value of financial instruments traded in active markets is based on quoted market prices at the statements of financial position date. A market is regarded as active if quoted prices are readily and regularly available from an exchange and those prices represent actual and regularly occurring market transactions on an arm's length basis. This includes listed equities and corporate debt securities which are actively traded.

(ii) Financial instruments in Level 2

Where fair value is determined using quoted prices in less active markets or quoted prices for similar assets and liabilities, such instruments are generally classified as Level 2. In cases where quoted prices are generally not available, the Group and the Bank then determine fair value based upon valuation techniques that use market parameters, including but not limited to yield curves, volatilities and foreign exchange rates, as inputs. The majority of valuation techniques employ only observable market data and so reliability of the fair value measurement is high. These would include government securities, corporate private debt securities, corporate notes and most of the Group's and the Bank's derivatives.

(iii) Financial instruments in Level 3

The Group and the Bank classify financial instruments as Level 3 when there is reliance on unobservable inputs to the valuation model attributing to a significant contribution to the instrument value. Valuation reserves or pricing adjustments where applicable will be used to converge to fair value.

The valuation techniques and inputs used generally depend on the contractual terms and the risks inherent in the instrument as well as the availability of pricing information in the market. Principal techniques used include net tangible assets, net asset value, discounted cash flows, and other appropriate valuation models. These include private equity investments.

Changing one or more of the inputs to reasonable alternative assumptions would not change the value significantly for Level 3 financial instruments.

A33 Offsetting Financial Assets And Financial Liabilities

In accordance with MFRS 132 Financial Instruments: Presentation, the Group and the Bank report financial assets and financial liabilities on a net basis on the statements of financial position, only if there is a legally enforceable right to set off the recognised amounts and there is intention to settle on a net basis, or to realise the asset and settle the liability simultaneously. The following table shows the impact of netting arrangements on:

- (i) all financial assets and liabilities that are reported net on the statements of financial position; and
- (ii) all financial assets and liabilities that are subject to enforceable master netting arrangements or similar agreements, but do not qualify for statements of financial position netting.

For the financial assets and liabilities subject to enforceable master netting arrangements or similar arrangements, each agreement between the Group and the Bank and the counterparty allows for net settlement of the relevant financial assets and liabilities when both elect to settle on a net basis. In the absence of such an election, financial assets and liabilities will be settled on a gross basis, however, each party to the master netting agreement or similar agreement will have the option to settle all such amounts on a net basis in the event of default of the other party.

B2 Review Of Performance

(a) Business Review for the period ended 31 December 2022

Profitability

The Group's net profit after taxation was RM547.7 million for the nine months ended 31 December 2022, an increase of RM77.9 million or 16.6% year-on-year ("YOY"). The higher profits were largely due to higher net interest income and lower allowance for expected credit losses.

Net interest income improved by RM138.4 million or 12.4% YOY mainly due to higher loan growth and the increase in the Overnight Policy Rate ("OPR"). Net interest margin ("NIM") came in higher at 2.68% (Dec 21: 2.54%).

Loan Growth

The Group's loans, advances and financing continues to grow by 6.2% YOY to RM47.3 billion mainly driven by growth across major lines of business.

Other Operating Income

The Group recorded other operating income of RM199.7 million, lower by RM103.3 million or 34.1% YOY. The decrease was due to lower treasury and investment income arising from the challenging investment environment and lower brokerage income, offset by higher trade fees and wealth management income.

Operating Expenses

Operating expenses increased by RM36.5 million or 6.0% YOY, mainly from the continued investments in the sales force, marketing and establishment costs. The cost-to-income ratio ("CIR") stood at 44.1% (Dec 21: 42.6%). The Group will continue to be vigilant in managing the cost for the financial year.

Asset Quality

The Group's allowance for expected credit losses on loans, advances, financing and other financial assets recorded a charge of RM93.3 million, a decrease of RM50.4 million or 35.1% YOY. The net credit cost was at 20.0bps (Dec 21: 32.4bps). Loan loss coverage (including regulatory reserves) was at 130.2% (Dec 21: 127.0%).

Healthy Funding and Liquidity Position

The Group maintained a high current account/savings account ("CASA") ratio of 45.8%. Its customer-based funding stood at RM50.9 billion. Through our funding strategy, the Group's liquidity coverage and loans-to-funds ratios stood at 152.3% and 86.8% respectively. The Group will continue to maintain ample liquidity ratios and ensure sufficient liquidity buffers.

Proactive Capital Management

Our conservative capital management approach resulted in the Group maintaining a robust capital position. We continued to maintain one of the strongest capital levels in the industry, with Common Equity Tier-1 (CET 1) ratio at 14.2%, Tier-1 Capital ratio at 15.1% and Total Capital Ratio at 19.2%.

B2 Review Of Performance (Contd.)

(b) Performance by Business Segment and Subsidiary

The Group's business segments comprise Consumer Banking, Business Banking, Financial Markets and Stockbroking and Corporate Advisory.

The Group Consumer Banking segment recorded a profit before tax of RM139.4 million, an increase of RM142.7 million YOY. Net income was higher by RM54.0 million or 12.4% to RM488.4 million mainly due to the increase in net interest income by RM62.8 million offset by lower other operating income by RM8.8 million. Operating expenses was higher by RM28.1 million or 9.9%. Allowance for expected credit losses was lower by RM116.9 million. The segment assets recorded at RM23.8 billion.

The Group Business Banking segment, comprising Corporate, Commercial and Small Medium Enterprise ("SME") banking, recorded a profit before tax of RM375.9 million, an increase of RM21.6 million or 6.1% YOY. Net income increased by RM106.2 million or 18.5% to RM681.8 due to higher net interest income by RM99.1 million and higher other operating income by RM7.1 million. Operating expenses increased by RM18.7 million or 8.0%. Allowance for expected credit losses was higher by RM65.9 million. Segment assets recorded at RM23.6 billion.

The Group Financial Markets segment recorded a profit before tax of RM219.3 million, a decrease of RM117.8 million or 34.9% YOY. Net income was lower by RM117.5 million or 31.8% due to lower net interest income and other operating income. Operating expenses increased by RM0.3 million or 0.9%. Segment assets recorded at RM16.8 billion.

The Stockbroking and Corporate Advisory segment recorded a loss before tax of RM0.8 million mainly due to lower brokerage fees resulting from the disposal of Stockbroking business.

The Islamic Banking segment, which consist of Consumer Banking, Business Banking and Financial Markets, recorded a net profit after taxation of RM132.9 million, representing an increase of RM27.1 million or 25.7% compared to the corresponding period last year due to higher revenue from net profit income. Net income was higher by RM41.2 million or 14.0%. Net profit income was higher by RM57.0 million while other operating income was lower by RM15.9 million. Operating expenses increased by RM12.6 million or 12.6%. Allowance for expected credit losses stood at RM47.0 million. Total assets stood at RM16.3 billion.

(c) <u>Current Quarter Against Previous Year Corresponding Quarter</u>

The Group's profit after taxation of RM177.1 million for the quarter was RM26.1 million or 17.3% higher compared to the previous year corresponding quarter, mainly due to higher net interest income.

Key Quarter-on-Quarter Performance Highlights

- Net interest income increased by RM48.6 million or 12.5% mainly due to higher loan growth and OPR hikes.
- NIM was at 2.75% (3QFY22: 2.66%).
- Other operating income decreased by RM32.2 million or 35.7%. This was mainly due to lower treasury and investment income and wealth management income, offset by higher trade fees.
- Operating expenses were higher by RM6.8 million or 3.2% mainly from personnel cost.
- Net credit cost was at 7.7bps (3QFY22: 3.2bps).

B3 Comparison of Current Quarter Against Immediate Preceding Quarter

In comparison with the immediate preceding quarter, the Group's profit after taxation of RM177.1 million for the quarter was higher by RM18.7 million or 11.8% mainly due to higher net interest income and lower net credit cost.

Key Quarter-on-Quarter Performance Highlights

- Net interest income increased by RM17.6 million or 4.2% mainly due to higher loan growth and OPR hikes.
- NIM was at 2.75% (2QFY23: 2.70%).
- Other operating income decreased by RM1.6 million or 2.7% mainly due to lower treasury and investment income and wealth management income offset by higher cards income.
- Operating expenses were higher by RM13.6 million or 6.6% mainly from higher personnel, administrative and establishment cost.
- Net credit cost was at 7.7bps (2QFY23: 16.0bps).

B4 Prospects for the Current Financial Period

The Ministry of Finance (MOF) has projected healthy gross domestic product (GDP) growth of 4.5% in 2023. Despite expectations for a weaker global growth in 2023, Malaysia can take comfort from the relatively resilient domestic demand. Private consumption continues to be the key growth driver, underpinned by a robust labour market and continued policy support.

The MOF expects inflation to range between 2.8%-3.8% for 2023. Price pressures are expected to remain relatively elevated due to cost-pass through effects and increasing demand-driven pressure.

For financial year ending 31 March 2023, the Group will continue to focus on growing the business prudently in the three areas:

- (i) Acquiring more customers by scaling up the Group's core segments of SME and Consumer Banking;
- (ii) Focus on deepening customer engagement; and
- (iii) Enhancing productivity and efficiencies by streamlining process and improving customer digital adoption.

The Group will continue to focus on managing its asset quality by continuing to prioritise customer engagement and continue managing its loan portfolio with refined credit underwriting to support the above business growth.

In addition to the above, the Group has also embarked on a strategy refresh which takes on an 8-pronged approach over the next four years beginning from the next financial year 2024. The strategy refresh was designed to accelerate the growth and entrench the Group among the leading financial services provider in the country.

The new strategy refresh will cover eight pillars which are i) continue velocity on SME expansion strategy; ii) supporting our business customers through their life cycle; iii) broaden consumer business by targeting new market segments; iv) targeting resilient ecosystems across their value chain; v) become regional champion for selected economic corridors; vi) drive synergies and value creation in our corporate and capital market business; vii) accelerate our Islamic business by leveraging unique propositions; and viii) leverage partnerships to scale product offering, distribution and drive value.

(i) The Group's and the Bank's derivative are subject to credit risk, market risk and liquidity risk as follow:

Credit Risk

Credit risk is the risk of financial loss resulting from the failure of the Group's borrowers or counterparties to fulfil their contractual obligations to repay their loans or settle commitments. Exposure to credit risk may be categorised as primary or secondary. This exposure is monitored on an on-going basis against predetermined counterparty limits. As at 31 December 2022, the amount of credit risk in the Group and the Bank, measured in terms of the cost to replace the profitable contracts, were RM295,305,000 and RM296,726,000 respectively (31 March 2022: RM86,294,000). This amount will increase or decrease over the life of the contracts, mainly as a function of maturity dates and market rates or prices.

B9 Derivative Financial Assets/(Liabilities) (Contd.)

(i) The Group's and the Bank's derivative are subject to credit risk, market risk and liquidity risk as follow: (contd.)

Market Risk

Market Risk is the risk of loss of earnings arising from changes in interest rates, foreign exchange rates, equity prices, commodity prices and in their implied volatilities.

The Group has established a framework of approved risk policies, measurement methodologies and risk limits as approved by the Group Risk Management Committee to manage market risk. Market risk arising from the trading activities is controlled via position limits, loss limits, sensitivity limits and valuation via daily mark-to-market, where available.

Liquidity Risk

Liquidity risk is the inability of the Group and the Bank to meet financial commitments when due.

The Group's and the Bank's liquidity risk profile are managed using liquidity risk management strategies set in the Liquidity Risk Management Policy. Liquidity Risk Measures are monitored against approved threshold by Group Assets and Liabilities Management Committee and Group Risk Management Committee. A contingency funding plan is also established by the Group and the Bank as a forward-looking measure to ensure that liquidity risk can be addressed according to the degrees of key risk indicators, and which incorporates alternative funding strategies which are ready to be implemented on a timely basis to mitigate the impact of unforeseen adverse changes in liquidity in the market place.

(ii) Cash Requirements of the Derivatives

Cash requirements of the derivatives may arise from margin requirements to post cash collateral with counterparties as the fair value moves beyond the agreed upon threshold limits in the counterparties' favour, or upon downgrade in the Group's and the Bank's credit ratings. As at 31 December 2022, the Group and the Bank had posted cash collateral of RM148,524,000 (31 March 2022: RM118,485,000) on their derivative contracts.

(iii) <u>Related accounting policies</u>

Derivative financial instruments are initially recognised at fair value, which is normally zero or negligible at inception except for options and subsequently re-measured at their fair value. The fair value of options at inception is normally equivalent to the premium received (for options written) or paid (for options purchased). All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative. Changes in the fair value are recognised in the statement of comprehensive income.

Interest income and expenses associated with interest rate swaps are recognised over the life of the swap agreement as a component of investment income.

- (iv) <u>There have been no changes since the end of the previous financial year in respect of the following:</u>
 - (a) the types of derivative financial contracts entered into and the rationale for entering into such contracts, as well as the expected benefits accruing from these contracts;
 - (b) the risk management policies in place for mitigating and controlling the risks associated with these financial derivative contracts; and
 - (c) the related accounting policies.

B9 Derivative Financial Assets/(Liabilities) (Contd.)

(iv) There have been no changes since the end of the previous financial year in respect of the following: (contd.)

The credit risk, market risk and liquidity risk associated with the derivatives and the policies in place for mitigating or controlling the risks with these derivatives are consistent with those adopted in the most recent audited annual financial statements for the financial year ended 31 March 2022.

B10 Changes in Material Litigation

The Group and the Bank do not have any material litigation which would materially and adversely affect the financial position of the Group and the Bank for the current financial period ended 31 December 2022.

B11 Dividend Declared

- (a) No dividend has been declared for the third financial quarter ended 31 December 2022.
- (b) The total dividend declared for the current financial period ended 31 December 2022 is 12.0 sen (31 December 2021: 8.3 sen)

B12 Earnings Per Share

(a) Basic

Basic earnings per share is calculated by dividing profit for the financial period attributable to equity holders of the Bank by the weighted average number of ordinary shares in issue during the financial period.

B12 Earnings Per Share (Contd.)

(b) Diluted

For the purpose of calculating diluted earnings per share, the profit for the financial period attributable to equity holders of the Bank and the weighted average number of ordinary shares in issue during the financial period have been adjusted for the dilutive effects of all potential ordinary shares, (non-cumulative).

There were no dilutive potential ordinary shares outstanding as at 31 December 2022 and 31 December 2021 respectively. As a result, the dilutive earnings per share was equal to basic earnings per share for the financial period ended 31 December 2022 and 31 December 2021.
