DIRECTORS' REPORT

The Directors have pleasure in submitting their report together with the audited financial statements of the Bank for the financial year ended 31 March 2023.

PRINCIPAL ACTIVITIES

The Bank is principally engaged in all aspects of Islamic Banking and finance business and the provision of related financial services. Islamic Banking and finance business refers generally to the acceptance of deposits and granting of financing and all other activities (including corporate finance, equity and debt capital market activities) allowed under the Islamic Financial Services Act, 2013 and the Shariah principles.

On 1 April 2022, the corporate finance, equity and debt capital market business was transferred from Alliance Investment Bank Berhad ("AIBB"), a related company, to the Bank based on the net asset value of 31 March 2022 of AIBB.

FINANCIAL RESULTS

| | RM'000 |
|-----------------------------------|----------|
| Profit before taxation | 214,529 |
| Taxation | (52,338) |
| Net profit for the financial year | 162,191 |

RESERVES AND PROVISIONS

There were no material transfers to or from reserves or provisions during the financial year other than as disclosed in the financial statements.

DIVIDENDS

The amounts of dividends declared and paid by the Bank since 31 March 2022 were as follows:

| | | RM'000 |
|------|---|------------------|
| (i) | A single tier second interim dividend of 9.98 sen per share, on 414,249,197 ordinary shares in respect of the financial year ended 31 March 2022, was paid on 16 June 2022. | 41,342 |
| (ii) | A single tier first interim dividend of 10.42 sen per share, on 414,249,197 ordinary shares in respect of the financial year ended 31 March 2023, was paid on 15 December 2022. | 43,165 84,507 |

Subsequent to the financial year end, the Directors declared a single tier second interim dividend of 9.10 sen per share, on 414,249,197 ordinary shares amounting to approximately RM37,697,000 in respect of the current financial year. The accompanying financial statements do not reflect this dividend. The dividend will be accounted for in shareholders' equity as an appropriation of retained profits in the financial year ending 31 March 2024.

The Directors do not propose any final dividend in respect of the financial year ended 31 March 2023.

ISSUE OF SHARES AND DEBENTURES

There were no issuance of new shares during the financial year. The Bank had issued and redeemed debt securities during the financial year and the details are disclosed in Note 19 to the financial statements.

(Incorporated in Malaysia)

BAD AND DOUBTFUL FINANCING

Before the financial statements of the Bank were prepared, the Directors took reasonable steps to ascertain that proper action had been taken in relation to the writing off of bad financing and the making of allowance for doubtful financing, and satisfied themselves that all known bad financing had been written off and adequate allowances have been made for doubtful financing.

At the date of this report, the Directors are not aware of any circumstances which would render the amount written off for bad financing, or the amount of the allowance for doubtful financing in the financial statements of the Bank inadequate to any substantial extent.

CURRENT ASSETS

Before the financial statements of the Bank were prepared, the Directors took reasonable steps to ascertain that any current assets which were unlikely to realise their value as shown in the accounting records in the ordinary course of business, had been written down to an amount which the current assets might be expected so to realise.

At the date of this report, the Directors are not aware of any circumstances which would render the values attributed to the current assets in the financial statements of the Bank misleading.

VALUATION METHOD

At the date of this report, the Directors are not aware of any circumstances which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Bank misleading or inappropriate.

CONTINGENT AND OTHER LIABILITIES

At the date of this report, there does not exist:

- (i) any charge on the assets of the Bank which has arisen since the end of the financial year which secures the liabilities of any other person; or
- (ii) any contingent liability in respect of the Bank that has arisen since the end of the financial year other than in the ordinary course of banking business.

No contingent or other liability of the Bank has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may affect the ability of the Bank to meet their obligations as and when they fall due.

CHANGE OF CIRCUMSTANCES

At the date of this report, the Directors are not aware of any circumstances, not otherwise dealt with in this report or the financial statements of the Bank, which would render any amount stated in the financial statements misleading.

ITEMS OF AN UNUSUAL NATURE

In the opinion of the Directors:

- (i) the results of the operations of the Bank during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature; and
- (ii) there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature which is likely to affect substantially the results of the operations of the Bank for the financial year in which this report is made.

(Incorporated in Malaysia)

DIRECTORS

The Directors of the Bank in office during the financial year and during the period from the end of the financial year to the date of this report are:

Datuk Wan Azhar Bin Wan Ahmad (Chairman) Ibrahim Bin Hassan Dato' Ahmad Hisham bin Kamaruddin Rustam bin Mohd Idris Joel Kornreich (Resigned on 31 August 2022)

DIRECTORS' REMUNERATION

Total Directors' remuneration for the current financial year amounted to RM822,000. The details of directors' remuneration are set out in Note 34 to the financial statements.

DIRECTORS' BENEFITS

Neither at the end of the financial year, nor at any time during the year, did there subsist any arrangements to which the Bank is a party, whereby the Directors might acquire benefits by means of the acquisition of shares in, or debentures of, the Bank or any other body corporate.

Since the end of the previous financial year, no Director of the Bank has received or become entitled to receive any benefit (other than benefits shown under Directors' Remuneration in Note 34 to the financial statements) by reason of a contract made by the Bank or its holding company or subsidiaries of the holding company with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest.

DIRECTORS' INTERESTS

According to the Register of Directors' Shareholdings that is required to be kept under Section 59 of the Companies Act 2016, none of the Directors in office at the end of the financial year had any interest in shares, share options and share grants in the Bank or its holding company or subsidiaries of the holding company during the financial year.

BUSINESS REVIEW FOR THE FINANCIAL YEAR ENDED ("FYE") 31 MARCH 2023

Profitability

The Bank's net profit after taxation was RM162.2 million for the financial year ended 31 March 2023, an increase of RM37.2 million or 29.8% year-on-year ("YOY"). The higher profits were largely due to higher net profit income and lower allowance for expected credit losses.

Net profit income improved by RM65.4 million or 18.8% YOY due to higher financing growth and Overnight Policy Rate ("OPR") hikes. Net profit margin ("NPM") came in higher at 2.67% (FY2022: 2.41%).

Financing Growth

The Bank's financing and advances grew by 6.9% YOY to RM12.5 billion. The growth was mainly driven by the Small and Medium Enterprises ("SME"), Commercial and Consumer banking, which grew by 26.7%, 12.2% and 2.2%, respectively.

Other Operating Income

The Bank recorded other operating income of RM25.4 million, lower by RM13.6 million or 34.9% YOY mainly due to lower treasury and investment income arising from the challenging investment environment, partly offsetted by corporate advisory fees and higher processing fees and trade fees.

(Incorporated in Malaysia)

BUSINESS REVIEW FOR THE FYE 31 MARCH 2023 (CONTD.)

Managing Operating Expenses

Operating expenses increased by RM21.2 million or 15.7%, mainly from higher personnel, marketing, administrative and establishment costs. The cost-to-income ratio ("CIR") stood at 35.5% (FY2022: 34.8%).

The Bank will continue to be vigilant on managing the cost in the coming financial year.

Asset Quality

The Bank's allowance for expected credit losses on financing, advances and other financial assets recorded a charge of RM68.7 million, a decrease of RM4.6 million or 6.3% YOY. The net credit cost was recorded at 56.8bps (FY2022: 64.9bps). Financing loss coverage (including regulatory reserves) was at 123.5% (FY2022: 146.9%).

Healthy Funding and Liquidity Position

The Bank's customer deposits stood at RM14.2 billion and the Bank maintained a high current account/savings account ("CASA") ratio of 33.2%. The Bank's liquidity coverage and financing-to-funds ratios stood at 142.0% and 84.9%, respectively.

The Bank will continue to maintain healthy liquidity ratios and ensure sufficient liquidity buffers.

Proactive Capital Management

We continued to maintain strong capital levels, with Common Equity Tier-1 ("CET 1") ratio at 13.7%, Tier-1 Capital Ratio at 14.7% and Total Capital Ratio at 17.1%.

The Bank declared a second interim dividend of 9.10 sen per share in respect of the financial year ended 31 March 2023.

The Bank will continue to prioritise capital conservation in order to support future business expansion.

ECONOMIC AND BUSINESS OUTLOOK FOR THE FYE 31 MARCH 2024

For 2023, Bank Negara Malaysia ("BNM") forecasts Malaysia's gross domestic product ("GDP") growth to range between 4% and 5%, compared to a growth of 8.7% in the preceding year.

We expect Malaysia's economic growth trajectory to be supported by sustained domestic demand due to the continued improvement of the labour market conditions. We believe that further normalisation to the OPR will continue this year as the existing OPR of 2.75% remains below the pre-pandemic level.

Nevertheless, we remain cautious and mindful of downside risks to growth stemming from external uncertainties especially escalating geopolitical tensions and tightening financial conditions.

Notwithstanding the above, the Bank expects to continue a positive financial performance going into FY2024 and remains on track in fulfilling the growth ambitions under ACCELER8. The Bank will broaden its focus and expand into new areas beyond SMEs to accelerate its growth and pay more attention to consumer banking, and wealth management and increase the contribution of the Islamic Banking business to the Group. The Bank will also continue to build strategic partnerships to widen its product offering and distribution, create more value for its customers and expand its business presence in fast-growing states and secondary cities to capture the growth opportunities of these economic corridors.

With prudent financing growth above the industry average, strong credit risk management, controlled financing loss provisions, strengthen deposit/CASA proposition and cost management, the Bank aims to increase the contribution in terms of the profitability and SME financing to the Group.

(Incorporated in Malaysia)

RATING BY EXTERNAL RATING AGENCY

The Bank is rated by RAM Rating Services Berhad ("RAM"). Based on RAM's rating in November 2022, the Bank's short-term and long-term ratings are reaffirmed at P1 and A1 respectively. RAM has classified these rating categories as follows:

- P1 Financial institutions in this category have superior capacities for timely payments of obligations.
- A1 Financial institutions rated in this category are adjudged to offer adequate safety for timely payments of financial obligations. This level of rating indicates financial institutions with adequate credit profiles, but possess one or more problem areas, giving rise to the possibility of future riskiness. Financial institutions rated in this category have generally performed at industry average and are considered to be more vulnerable to changes in economic conditions than those rated in the higher categories.

HOLDING COMPANY

The holding company of the Bank is Alliance Bank Malaysia Berhad, a bank incorporated in Malaysia and listed on the Main Market of Bursa Malaysia Securities Berhad.

AUDITOR'S REMUNERATION

Total auditors' remuneration for the Bank for the financial year ended 31 March 2023 is RM442,000. Details of auditor's remuneration are set out in Note 27 to the financial statements.

SHARIAH COMMITTEE

The Shariah Committee for the financial year 2022/2023 consists of 5 members appointed by the Bank's Board of Directors. The primary roles and responsibilities of the Shariah Committee are as follows:-

- (a) providing a decision or advice to the Bank on the application of any rulings of the BNM's Shariah Advisory Council ("SAC") and Securities Commission's SAC (collectively, "SACs") or standards on Shariah matters that are applicable to the operations, business, affairs and activities of the Bank;
- (b) providing a decision or advice on matters which require a reference to be made to the SACs;
- (c) providing a decision or advice on the operations, business, affairs and activities of the Bank which may trigger a Shariah non-compliance event;
- (d) deliberating and affirming a Shariah non-compliance finding by any relevant functions;
- (e) deciding on potential Shariah non-compliance event and endorsing measures for its rectification;
- (f) endorsing Shariah related policies and framework before its being approved by the Board;
- (g) approving procedures which complements policies and framework and product collaterals;
- (h) assessing the works carried out by Shariah Review and Shariah Audit;
- (i) endorsing zakat computation and distribution; and
- (j) providing advice on the application of Shariah requirements in relation to the recovery options and other relevant components of the Recovery Plan.

(Incorporated in Malaysia)

ZAKAT OBLIGATION

The management of the Bank's zakat is governed by the Bank's Zakat Policy and Procedures. The Bank as an Islamic business entity computes zakat using Asset Growth Method at the rate of 2.575 percent based on Gregorian calendar. The zakat payment does not cover the zakat obligation by the depositors. The zakat computation is endorsed by the Shariah Committee. The payment of zakat to zakat authorities and eligible recipients is recommended and approved by Shariah Committee and the Board of Directors respectively.

SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR

The significant events during the financial year are disclosed in Note 43 to the financial statements.

SUBSEQUENT EVENTS

The events subsequent to the end of the financial reporting period are disclosed in Note 44 to the financial statements.

AUDITORS

The auditors, PricewaterhouseCoopers PLT (LLP0014401-LCA & AF1146), have expressed their willingness to continue in office.

Signed on behalf of the Board of Directors in accordance with a resolution of the Directors.

SHARIAH COMMITTEE'S REPORT

In the name of Allah, The Most Gracious, The Most Merciful

In performing our roles and responsibilities in line with the Shariah Commitee Charter of Alliance Islamic Bank Berhad ("the Bank"), Bank Negara Malaysia's ("BNM")'s Shariah Governance Policy Document, as well as our letter of appointment, we are required to submit the following report:

We wish to state notwithstanding our report presented herein, the management of the Bank is responsible for ensuring that the Bank conducts its business in accordance with Shariah principles, and it is our responsibility to form an independent opinion based on our review on the Bank operations.

During the period under review we had convened twelve Shariah Committee meetings during which we reviewed the principles and the contracts relating to the products, transactions and dealings entered into by the Bank as well as issues arising thereof which had been presented before us. In addition, during the period under review we also assessed the work carried out by the Shariah Review and Shariah Audit teams.

In our opinion:

- (a) The overall operations, business, affairs and activities of the Bank are in compliance with Shariah but it has come to our attention that there were Shariah non-compliance events had occurred as disclosed in (f) below and had been rectified or in the process of being rectified;
- (b) In performing our role as espoused above we obtained all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give us reasonable assurance that the Bank has not violated Shariah principles;
- (c) The contracts, transactions and dealings entered into by the Bank during the financial year ended 31 March 2023 that we have reviewed are in compliance with Shariah principles;
- (d) Group Compliance and the Group Audit carried out Shariah Review and Shariah Audit functions on a regular basis where we reviewed reports prepared thereof and examined on a test basis, each type of transaction, the relevant documentations and procedures adopted by the Bank to enable us to form an opinion as to whether the Bank has complied with Shariah principles and Shariah rulings issued by the Shariah Advisory Council ("SAC") of BNM, as well as Shariah Committee's decisions. We also noted that the incidences of noncompliances revealed arising from the reviews and audit conducted were tracked and monitored until closure;
- (e) In the financial year under review, pursuant to the Bank's Zakat Policy and Procedures, the Bank has fulfilled its obligation to pay zakat on its business to the eligible recipients. The zakat amount was computed using Asset Growth method; and
- (f) During the period under review, there were two Shariah non-compliance events which had been confirmed by us involving RM100.54 non-compliance income as follows:
 - (i) Foreign Outward Telegraphic Transfer Transaction
 - (ii) Non-Performance of Commodity Murabahah (CM) Trading for Restructured & Rescheduled (R&R) Personal Financing-i Facility

We also noted that the Shariah non-compliance events above were due to oversight and lack of awareness on the requisite understanding of Islamic banking principles amongst the relevant staff. The Bank had taken appropriate corrective actions as well as preventive measures to address the gaps as guided by us including purification of the Shariah non-compliant income by donating to charity and/or refunding to affected customer, improvement of staff communication, holding additional staff training, system enhancement and revision of relevant policies to tighen relevant processes and prevent recurrence.

(Incorporated in Malaysia)

SHARIAH COMMITTEE'S REPORT (CONTD.)

In relation to the above, based on the information provided and disclosed to us, we do hereby confirm that, to the best of our knowledge, the business, operations and activities of the Bank for the year ended 31 March 2023 had been conducted in conformity with Shariah.

Signed on behalf of the Shariah Committee

Dr. Tuan Badrul Hisyam bin Tuan Soh Chairman of the Shariah Committee

Professor Dr. Muhamad Rahimi bin Osman Shariah Committee Member

31 May 2023

INDEPENDENT AUDITORS' REPORT TO THE MEMBER OF ALLIANCE ISLAMIC BANK BERHAD

(Incorporated in Malaysia) 200701018870 (776882-V)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of Alliance Islamic Bank Berhad ("the Bank") give a true and fair view of the financial position of the Bank as at 31 March 2023, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

What we have audited

We have audited the financial statements of the Bank, which comprise the statement of financial position as at 31 March 2023, and the statement of income, statement of comprehensive income, statement of changes in equity and statement of cash flows for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 14 to 102.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Bank in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

INDEPENDENT AUDITORS' REPORT TO THE MEMBER OF ALLIANCE ISLAMIC BANK BERHAD (CONTD.)

(Incorporated in Malaysia) 200701018870 (776882-V)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTD.)

Information other than the financial statements and auditors' report thereon

The Directors of the Bank are responsible for the other information. The other information comprises the Directors' Report and Shariah Committee's Report, but does not include the financial statements of the Bank and our auditors' report thereon.

Our opinion on the financial statements of the Bank does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Bank, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Bank or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the financial statements

The Directors of the Bank are responsible for the preparation of the financial statements of the Bank that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Bank that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Bank, the Directors are responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Bank or to cease operations, or have no realistic alternative but to do so.

INDEPENDENT AUDITORS' REPORT TO THE MEMBER OF ALLIANCE ISLAMIC BANK BERHAD (CONTD.)

(Incorporated in Malaysia) 200701018870 (776882-V)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTD.)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Bank as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Bank, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- (d) Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Bank or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Bank, including the disclosures, and whether the financial statements of the Bank represent the underlying transactions and events in a manner that achieves fair presentation.

INDEPENDENT AUDITORS' REPORT TO THE MEMBER OF ALLIANCE ISLAMIC BANK BERHAD (CONTD.)

(Incorporated in Malaysia) 200701018870 (776882-V)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTD.)

Auditors' responsibilities for the audit of the financial statements (contd.)

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

OTHER MATTERS

This report is made solely to the member of the Bank, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 MARCH 2023

1. PRINCIPAL ACTIVITIES AND GENERAL INFORMATION

The Bank is principally engaged in all aspects of Islamic Banking and finance business and the provision of related financial services. Islamic Banking and finance business refers generally to the acceptance of deposits and granting of financing and all other activities (including corporate finance, equity and debt capital market activities) allowed under the Islamic Financial Services Act, 2013 and the Shariah principles.

On 1 April 2022, the corporate finance, equity and debt capital market business was transferred from Alliance Investment Bank Berhad ("AIBB"), a related company, to the Bank based on the net asset value of 31 March 2022 of AIBB.

The Bank is a public limited liability company, incorporated and domiciled in Malaysia. The registered office is located at 3rd Floor, Menara Multi-Purpose, Capital Square, 8, Jalan Munshi Abdullah, 50100 Kuala Lumpur, Malaysia.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the Directors on 31 May 2023.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Preparation

Malaysian Financial Reporting Standards ("MFRS") Framework

The financial statements of the Bank has been prepared in accordance with MFRS, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

The financial statements of the Bank has been prepared under the historical cost convention, as modified by the financial investments at fair value through other comprehensive income and financial assets/liabilities (including derivative instruments) at fair value through profit or loss.

The financial statements are presented in Ringgit Malaysia ("RM") and all numbers are rounded to the nearest thousand (RM'000), unless otherwise stated.

The preparation of the financial statements in conformity with MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. It also requires the Directors to exercise their judgement in the process of applying the Bank's accounting policies. Although these estimates and judgement are based on the Directors' best knowledge of current events and actions, actual results may differ from those estimates.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements is on the measurement of allowance for expected credit losses ("ECL") for financial assets measured at amortised cost and at fair value through other comprehensive income. These are the areas that require the use of significant assumptions about future economic conditions and credit behaviour.

The allowance for ECL is recognised using forward-looking information including macroeconomic factors. Using forward-looking information will increase the level of judgement as to how changes in these macroeconomic factors will affect the allowance for ECL. The methodology and assumptions including any forecasts of future economic conditions will continue to be monitored and reviewed.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(a) Basis of Preparation (contd.)

Malaysian Financial Reporting Standards ("MFRS") Framework (contd.)

The sensitivity effect on the macroeconomic factor is further disclosed in Note 35(a)(vi).

Some of the areas of significant judgements involved in the measurement of ECL are detailed as follows:

- Significant increase in credit risk in Note 35(a)(iv)(a);
- Development of ECL models and assumption for the measurement of ECL;
- Determining the number and relative weightings of forward-looking scenarios; and
- Establishing groups of similar financial assets for the purpose of measuring ECL on a collective basis.

The Bank has also applied overlays and post model adjustments to determine a sufficient overall level of allowance for ECL as at 31 March 2023. The basis is further disclosed in Note 35(a)(vii).

Standards, amendments to published standards and interpretations that are effective and applicable to the Bank

The new accounting standards, amendments and improvements to published standards and interpretations that are effective for the Bank for the financial year beginning 1 April 2021 are as follows:

- Amendment to MFRS 16 "COVID-19 Related Rent Concessions beyond 30 June 2021"
- Amendments to MFRS 3 "Reference to the Conceptual Framework"
- · Amendments to MFRS 116 "Proceeds before Intended Use"
- Amendments to MFRS 137 "Onerous Contracts Cost of Fulfilling a Contract"
- Annual Improvements to MFRS 9 "Fees in the 10% Test for Derecognition of Financial Liabilities"
- Annual Improvements to MFRS 1 "Subsidiary as First-time Adopter"
- Annual Improvements to Illustrative Example accompanying MFRS 16 Leases: Lease Incentives

The adoption of the above standards, amendments to published standards and interpretations to existing standards did not have any significant impact on the financial statements of the Bank.

Standards, amendments to published standards and interpretations to existing standards that are applicable to the Bank but not yet effective

The Bank will apply the new standards, amendments to standards and interpretations in the following period:

Financial year beginning after 1 April 2023

- (i) Amendments to MFRS 101, MFRS Practice Statement 2 and MFRS 108 on "Disclosure of Accounting Policies" and "Definition of Accounting Estimates"
 - · Amendments to MFRS 101, MFRS Practice Statement 2 "Disclosure of Accounting Policies"

The amendments require entities to disclose their material rather than their significant accounting policies. The amendments define what is "material accounting policy information" and explain how to identify when accounting policy information is material. They further clarify that immaterial accounting policy information does not need to be disclosed. If it is disclosed, it should not obscure material accounting information.

To support this amendment, the Malaysian Accounting Standards Board ("MASB") also amended MFRS Practice Statement 2 "Making Materiality Judgements" to provide guidance on how to apply the concept of materiality to accounting policy disclosures.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(a) Basis of Preparation (contd.)

Standards, amendments to published standards and interpretations to existing standards that are applicable to the Bank but not yet effective (contd.)

The Bank will apply the new standards, amendments to standards and interpretations in the following period: (contd.)

Financial year beginning after 1 April 2023 (contd.)

- (i) Amendments to MFRS 101, MFRS Practice Statement 2 and MFRS 108 on Disclosure of Accounting Policies and Definition of Accounting Estimates (contd.)
 - Amendments to MFRS 108 "Definition of Accounting Estimates"

The amendments redefined accounting estimates as "monetary amount in financial statements that are subject to measurement uncertainty". These amendments provide clarity on how to distinguish changes in accounting policies from changes in accounting estimates. The amendments clarify that effects of a change in an input or measurement technique used to develop an accounting estimate is a change in accounting estimate if the changes do not arise from prior period errors.

The amendments clarify how companies should distinguish changes in accounting policies from changes in accounting estimates. The distinction is important, because changes in accounting estimates are applied prospectively to future transactions and other future events, but changes in accounting policies are generally applied retrospectively to past transactions and other past events as well as the current period.

(ii) Amendments to MFRS 112 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"

The amendments clarify that the initial exemption rule does not apply to transactions where both an asset and a liability are recognised at the same time such as leases and decommissioning obligations. Accordingly, entities are required to recognise both deferred tax assets and liabilities for all deductible and taxable temporary differences arising from such transactions.

Financial year beginning after 1 April 2024

(i) Amendments to MFRS 101 "Classification of Liabilities as Current or Non-current"

The amendments clarify that a liability is classified as non-current if an entity has a substantive right at the end of the reporting period to defer settlement for at least 12 months after the reporting period.

A liability is classified as current if a condition is breached at or before the reporting date and a waiver is obtained after the reporting date. A financing is classified as non-current if a covenant is breached after the reporting date.

In addition, the amendments clarify that when a liability could be settled by the transfer of an entity's own equity instruments (e.g. a conversion option in a convertible bond), the conversion option that is not an equity instrument as defined in MFRS 132 "Financial Instruments: Presentation" is considered in the current or non-current classification of the convertible instrument.

The amendments shall be applied retrospectively.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(a) Basis of Preparation (contd.)

Standards, amendments to published standards and interpretations to existing standards that are applicable to the Bank but not yet effective (contd.)

The Bank will apply the new standards, amendments to standards and interpretations in the following period: (contd.)

Financial year beginning after 1 April 2024 (contd.)

(ii) Amendments to MFRS 16 "Lease Liability in a Sale and Leaseback"

The amendments specify the measurement of the lease liability arising in a sale and leaseback transaction that satisfies the requirements in MFRS 15 "Revenue from Contracts with Customers" is to be accounted for as a sale. In accordance with the amendments, the seller-lessee shall determine the "lease payments" or "revised lease payments" in a way that it does not result in the seller-lessee recognising any amount of the gain or loss that relates to the right of use it retains.

The amendments shall be applied retrospectively to sale and leaseback transactions entered into after the date when the seller-lessee initially applied MFRS 16.

(b) Intangible Assets: Computer Software

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring the specific software to use. The costs are amortised over their useful lives of five years and are stated at cost less accumulated amortisation and accumulated impairment, if any. Computer software is assessed for impairment whenever there is an indication that it may be impaired. The amortisation period and amortisation method are reviewed at least at the end of each reporting period.

The policy for the recognition and measurement of impairment losses is in accordance with Note 2(h)(ii).

Costs associated with maintaining computer software programmes are recognised as expenses as incurred. Costs that are directly associated with the production of identifiable and unique software products controlled by the Bank, and that will probably generate economic benefits exceeding costs beyond one year, are recognised as intangible assets. These costs include software development employee costs and appropriate portion of relevant overheads.

(c) Property, Plant and Equipment and Depreciation

Property, plant and equipment are initially recorded at cost. The cost of an item of property, plant and equipment initially recognised includes its purchase price and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Management.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are recognised as expenses in the statement of income during the financial year in which they are incurred.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(c) Property, Plant and Equipment and Depreciation (contd.)

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Subsequent to initial recognition, property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. The policy for the recognition and measurement of impairment is in accordance with Note 2(h)(ii).

Property, plant and equipment are depreciated on the straight-line basis to write off the cost of each asset to its residual value over the estimated useful life, summarised as follows:

Office equipment, furniture and fixtures 10% - 20% Renovations 20% Computer equipment 33.3%

Depreciation on assets under construction commences when the assets are ready for their intented use.

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any, and the net carrying amount is recognised in the statement of income.

(d) Financial Assets

(i) Classification

The Bank classifies the financial assets in the following measurement categories:

- Fair value through other comprehensive income ("FVOCI");
- Fair value through profit or loss ("FVTPL"); and
- Amortised cost.

For financial assets measured at fair value, gains and losses will either be recorded in statement of income or statement of other comprehensive income. For investment in debt instruments, this will depend on the business model in which the investment is held. For investment in equity instruments, it is determined by the irrevocable election at the time of initial recognition to account for the equity investment at FVTPL by the Bank.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(d) Financial Assets (contd.)

(i) Classification (contd.)

(i) Financial assets at FVOCI comprise:

Debt securities where the contractual cash flows are solely principal and profit, and the objective of the Bank's business model is achieved both by collecting contractual cash flows and selling financial assets.

(ii) The Bank classifies the following financial assets at FVTPL:

Debt investments that do not qualify for measurement at either amortised cost or fair value through comprehensive income.

- (iii) The Bank classifies their financial assets at amortised cost only if both of the following criteria are met:
 - The asset is held within a business model with the objective of collecting the contractual cash flows; and
 - The contractual terms give rise on specified dates to cash flows that are solely payments of principal and profit on the principal outstanding.

The policy of the recognition of impairment is in accordance with Note 2(h)(i).

(ii) Recognition and Initial Measurment

Regular way purchases and sales of financial assets are recognised on settlement date, the date on which the Bank settle to purchase or sell the asset.

At initial recognition, the Bank measures a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in statement of income.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and profit ("SPPI").

(iii) Subsequent Measurement

Debt instruments

There are three measurement categories into which the Bank classifies its debt instruments:

(i) Amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent SPPI are measured at amortised cost. Profit income from these financial assets is included in gross profit income using the effective profit method. Any gain or loss arising on derecognition is recognised directly in statement of income and presented in other operating income. Impairment losses are presented as a separate line item in the statement of income.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(d) Financial Assets (contd.)

(iii) Subsequent Measurement (contd.)

Debt instruments (contd.)

(ii) FVOCI

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent SPPI, are measured at FVOCI. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment gains or losses, interest profit and foreign exchange gains and losses which are recognised in statement of income.

When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to statement of income and recognised in other operating income. Profit income from these financial assets is included in gross profit income using the effective profit. Foreign exchange gains and losses are presented in other operating income and impairment expenses are presented as a separate line item in the statement of income and statement of comprehensive income.

(iii) FVTPL

Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVTPL. The Bank may also irrevocably designate financial assets at FVTPL if doing so significantly reduces or eliminates a mismatch created by assets and liabilities being measured on different bases. Fair value changes is recognised in statement of income and presented net within other operating income in the period which it arises.

(iv) Derecognition

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Bank has transferred substantially all risks and rewards of ownership.

Receivables that are factored out to banks and other financial institutions with recourse to the Bank is not derecognised until the recourse period has expired and the risks and rewards of the receivables have been fully transferred. The corresponding cash received from the financial institutions is recorded as amount due to Cagamas Berhad.

When financial investments at FVOCI are sold, the accumulated fair value adjustments recognised in other comprehensive income are reclassified to statement of income.

(e) Derivative Financial Instrument and Hedge Accounting

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value at the end of each reporting period.

The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

Derivatives that do not qualify for hedge accounting are classified as held for trading and accounted for at fair value through profit or loss. Changes in the fair value are recognised immediately in statement of income.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(e) Derivative Financial Instrument and Hedge Accounting (Contd.)

Derivatives that qualify for hedge accounting are designated as either:

- (a) Hedges of the fair value of recognised assets or liabilities or a firm commitment (fair value hedge);
- (b) Hedges of a particular risk associated with a recognised asset or liability or a highly probable forecast transaction (cash flow hedge); or
- (c) Hedges of a net investment in a foreign operation (net investment hedge).

The Bank documents at the inception of the hedge relationship, the economic relationship between hedging instruments and hedged items including whether changes in the cash flows of the hedging instruments are expected to offset changes in the cash flows of hedged items. The Bank document its risk management objective and strategy for undertaking its hedge transactions. Hedges that meet the strict criteria for hedge accounting are accounted for as described below:

(i) Fair Value Hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in statement of income, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

The Bank applies fair value hedge accounting for hedging fixed interest risk on securities. The gain or loss relating to the effective portion of interest rate swaps hedging fixed rate securities is recognised in statement of income. The gain or loss relating to the ineffective portion is recognised in statement of income within the other operating income. Changes in the fair value of the hedge fixed rate securities attributable to interest rate risk are recognised in equity.

If the hedge no longer meets the criteria for hedge accounting, the carrying amount of a hedged item is adjusted using the effective interest method to amortise to statement of income over the period to maturity.

(ii) Cash Flow Hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated in reserves within equity. The gain or loss relating to the ineffective portion is recognised immediately in statement of income.

Amounts accumulated in equity are reclassified to statement of income in the periods when the hedged item affect the statement of income.

When the forecast transaction that is hedged results in the recognition of a non-financial asset (for example property, plant and equipment), the gains or losses previously deferred in equity are reclassified from equity and included in the initial measurement of the cost of the asset. The deferred amounts are ultimately recognised in depreciation of property, plant and equipment.

When a hedging instrument expires or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in statements of changes in equity and is recognised in the periods when the hedged item affect the statement of income. When hedged future cash flows or forecast transaction is no longer expected to occur, the cumulative gain or loss and deferred cost of hedging that were reported in equity are immediately reclassified to statement of income.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(e) Derivative Financial Instrument and Hedge Accounting (Contd.)

(iii) Net Investment Hedge

Hedges of net investments in foreign operations are accounted for similarly to cash flow hedges.

Any gain or loss on the hedging instrument relating to the effective portion of the hedge is recognised in other comprehensive income and accumulated in reserves within equity. The gain or loss relating to the ineffective portion is recognised immediately in statement of income.

Gains and losses accumulated in equity are recycled to the statement of income when the foreign operation is disposed or partially disposed.

Interest Rate Benchmark Reform

The London Interbank Offered Rate ("LIBOR"), a key USD-based benchmark rate used for setting interest rate for derivatives is expected to cease by 23 June 2023 and to be replaced by the Secured Overnight Financing Rate ("SOFR"). This applies to tenures of Overnight, 1-month, 3-month, 6-month and 12-month.

In Malaysia, Bank Negara Malaysia ("BNM") announced the launch of the Malaysia Overnight Rate ("MYOR") as the new alternative reference rate ("ARR") for Malaysia on 24 September 2021. The industry is still pending finalisation from BNM on the ARR.

The Bank has completed system upgrade to manage the transition.

(f) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy.

(g) Other Assets

Other receivables, deposits and amount due from related party included in other assets are carried at amortised cost using the effective yield method, less allowances for expected credit losses. Bad debts are written-off when identified. An estimate is made for doubtful debts based on a review of all outstanding amounts as at the end of the reporting period.

(h) Impairment of Assets

(i) Impairment of Financial Assets

The Bank assesses on a forward-looking basis the expected credit loss ("ECL") associated with its financial assets carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

The Bank's financial assets that are subjected to the ECL model include financial assets classified at amortised cost, debt instruments measured at FVOCI, financing commitments, financial guarantee contracts and other commitments.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(h) Impairment of Assets (contd.)

(i) Impairment of Financial Assets (contd.)

(a) General 3-stage approach

At each reporting date, the Bank measures ECL through loss allowance at an amount equal to 12-month ECL if credit risk on a financial instrument or a group of financial instruments has not increased significantly since initial recognition. For all other financial instruments, a loss allowance at an amount equal to lifetime ECL is required.

Impairment will be measured on each reporting date according to a three-stage ECL impairment model:

- (i) Stage 1 from initial recognition of a financial asset to the date on which the credit risk of the asset has increased significantly relative to its initial recognition, a loss allowance is recognised equal to the credit losses expected to result from defaults occurring over the next 12 months (12-month ECL); and
- (ii) Stage 2 following a significant increase in credit risk relative to the initial recognition of the financial assets, a loss allowance is recognised equal to the credit losses expected over the remaining life of the asset (Lifetime ECL); and
- (iii) Stage 3 when a financial asset is considered to be credit-impaired, a loss allowance equal to full lifetime expected credit losses is to be recognised (Lifetime ECL). This includes exposures which have triggered obligatory impairment criterion or are judgementally impaired.

Measurement of ECL is set out in Note 35.

(b) Simplified approach for other receivables

The Bank applies the MFRS 9 simplified approach to measure ECL which uses probability default ratio ("PD") and loss given default ("LGD") for the due amount.

The PD methodology is derived based on net flow rate model as a simplified approach in view of its low credit risk and non-maturity profile on due amount. LGD is deemed to be in full at any point in time as accounts are short term repayment and forward looking element will not be considered.

(c) Write-off

The Bank writes-off financial assets, in whole or in part, when all practical recovery efforts have been exhausted and it is conculded that there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of borrower's sources of income or assets to generate sufficient future cash flows to repay the amount. The Bank may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in bad debt recoveries.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(h) Impairment of Assets (contd.)

(ii) Impairment of Non-Financial Assets

Other non-financial assets such as property, plant and equipment and computer software are reviewed for objective indications of impairment at the end of each reporting period or whenever there is any indication that these assets may be impaired. Where such indications exist, impairment is determined as the excess of the asset's carrying value over its recoverable amount (greater of value in use or fair value less costs to sell) and is recognised in the statement of income. An impairment for an asset is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment was recognised.

The carrying amount is increased to its revised recoverable amount, provided that the amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment been recognised for the asset in prior years. A reversal of impairment for an asset is recognised in the statement of income.

(i) Financial Liabilities

Financial liabilities are initially recognised at the fair value of consideration received less directly attributable transaction costs. Subsequent to initial recognition, financial liabilities are measured at amortised cost.

Certain financial liabilities are designated at initial recognition at fair value through profit or loss. When one of the designation criteria is met:

- (i) Designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- (ii) Its performance is evaluated on a fair value basis, in accordance with a documented management or investment strategy.

A financial liability which does not meet any of these criteria may still be designated as measured at FVTPL when it contains one or more embedded derivatives that sufficiently modify the cash flows of the liability and are not clearly closely related.

Profit payables are now classified into the respective class of financial liabilities.

(j) Repurchase Agreements

Financial instruments purchased under resale agreements are instruments which the Bank has purchased with a commitment to resell at future dates. The commitment to resell the instruments is reflected as an asset in the statement of financial position and measured at amortised cost.

Conversely, obligations on financial instruments sold under repurchase agreements are instruments which the Bank has sold from their portfolio, with a commitment to repurchase at future dates are measured at amortised cost. Such financing transactions and the obligations to repurchase the instruments are reflected as a liability in the statement of financial position.

(k) Bills and Acceptances Payable

Bills and acceptances payable represent the Bank's own bills and acceptances rediscounted and outstanding in the market.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(I) Subordinated Sukuk

The profit-bearing instruments are classified as liabilities in the statement of financial position as there is a contractual obligation by the Bank to make cash payments of either principal or profit or both to holders of the debt securities, and the Bank are contractually obliged to settle the financial instrument in cash or another financial instrument.

Subsequent to initial recognition, debt securities issued are recognised at amortised cost, with any difference between proceeds net of transaction costs and the redemption value being recognised in the statement of income over the period of the borrowings on an effective profit method.

(m) Provisions

Provisions are recognised when the Bank has a present legal or constructive obligation as a result of past events. It is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made.

Where the Bank expects a provision to be reimbursed by another party (for example, under an insurance contract), the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as finance cost expense.

(n) Leases

Lease in which the Bank is a Lessee

Leases are recognised as right-of-use ("ROU") asset and a corresponding liability at the date on which the leased asset is available for use by the Bank (i.e. the commencement date).

Contracts may contain both lease and non-lease components. The Bank allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of properties for which the Bank are a lessee, it has elected the practical expedient provided in MFRS 16 not to separate lease and non-lease components. Both components are accounted for as a single lease component and payments for both components are included in the measurement of lease liability.

(i) Lease Term

In determining the lease term, the Bank considers all facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not to be terminated).

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(n) Leases (contd.)

Lease in which the Bank is a Lessee (contd.)

(i) Lease Term (contd.)

The Bank reassess the lease term upon the occurrence of a significant event or change in circumstances that is within the control of the Bank and affects whether the Bank is reasonably certain to exercise an option not previously included in the determination of the lease term, or not to exercise an option previously included in the determination of the lease term. A revision in the lease term results in remeasurement of the lease liabilities.

(ii) ROU Assets

ROU assets are initially measured at cost comprising the following:

- · The amount of the initial measurement of lease liability;
- Any lease payments made at or before the commencement date less any lease incentive received:
- · Any initial direct costs; and
- · Decommissioning or restoration costs.

ROU assets that are not investment properties are subsequently measured at cost, less accumulated depreciation and impairment loss, if any. ROU assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Bank is reasonably certain to exercise a purchase option, ROU assets are depreciated on the underlying asset's useful life. In addition, ROU assets are adjusted for certain remeasurement of the lease liabilities.

ROU assets are presented as a separate line item in the statement of financial position.

(iii) Lease Liabilities

Lease liabilities are initially measured at the present value of the lease payments that are not paid at that date. The lease payments include the following:

- Fixed payments (including in-substance fixed payments), less any lease incentive receivable;
- Variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable by the Bank under residual value guarantees;
- The exercise price of a purchase and extension options if the Bank is reasonably certain to exercise that option; and
- Payments of penalties for terminating the lease, if the lease term reflects the Bank exercising that option.

Lease payments are discounted using the profit rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Bank, the lessee's incremental borrowing is used. This is the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the ROU in a similar economic environment with similar term, security and conditions.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(n) Leases (contd.)

Lease in which the Bank is a Lessee (contd.)

(iii) Lease Liabilities (contd.)

Lease payments are allocated between principal and finance cost. The finance cost is charged to statement of income over the lease period so as to produce a constant periodic rate of profit on the remaining balance of the liability for each period.

The Bank presents the lease liabilities as a separate line item in the statement of financial position. Profit expense on the lease liability is presented within the net profit income in statement of income.

(iv) Short-Term Leases and Leases of Low Value Assets

Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise computer equipment and small items of office equipment. Payments associated with short-term leases of equipment and all leases of low-value assets are recognised on a straight-line basis as an operating expense in statement of income.

(o) Share Capital and Dividends Declared

(i) Classification

Ordinary shares with discretionary dividends are classified as equity.

(ii) Share Issue Costs

Incremental costs directly attributable to the issue of new shares or options are deducted against equity.

(iii) Dividends Declared

Dividends declared on ordinary shares are deducted from equity in the period in which all relevant approvals have been obtained.

(iv) Earnings Per Share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owner of the Bank, excluding any costs of servicing equity other than ordinary shares; and
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(o) Share Capital and Dividends Declared (contd.)

(iv) Earnings Per Share (contd.)

Diluted earnings per share

Diluted earnings per share adjusts the figures in the determination of basic earnings per share to take into account:

- the after income tax effect of profit and other financing costs associated with dilutive potential ordinary shares; and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

(p) Recognition of Financing Income

Finance income is recognised using effective profit rates, which is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financing or, where appropriate, a shorter period to the net carrying amount of the financing. When calculating the effective profit rate, the Bank estimates cash flows considering all contractual terms of the financing but does not consider future credit losses. The calculation includes significant fees paid or received between parties to the contract that are an integral part of the effective profit rate, transaction costs and all other premiums or discounts.

Profit income and financing income are recognised in the statement of income for all profit-bearing assets on an accrual basis. Profit income and financing income include the amortisation of premium or accretion of discount. Income from the Islamic banking business is recognised on an accrual basis in accordance with the Shariah principles.

For credit impaired financing where the value has been reduced as a result of impairment loss, the financing income continues to be accrued using the rate of profit used to discount the future cash flows for the purpose of measuring the impairment.

(q) Recognition of Fees and Other Income

Fee and commission income of the Bank is from a wide range of products and services provided to the customers. The income is recognised based on the contractual rates or amount, netted off against fee and commission expense directly attributable to the income. When the performance obligation is fulfilled, where the products and services are delivered to the customer, fee and commission income will be recognised in statement of income.

For transaction-based fee and commission income, it is recognised on the completion of the transaction. Such fees include fees related to the completion of corporate advisory fees, financing arrangement fees and commissions, management and participation fees, underwriting commissions, service charges on sale of unit trust funds. These fees constitute a single performance obligation.

For services that are provided over a period of time, fee and commission income is recognised on equal proportion basis over the period during which the related service is provided. This basis of recognition will reflect the nature of these services to the customers over time. Fees for these services can be billed periodically over time. Such fees include commitment, guarantee and portfolio management fees and bancassurance agreements.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(q) Recognition of Fees and Other Income (contd.)

Net gain or loss from disposal of financial assets at fair value through profit or loss and financial investments at fair value through other comprehensive income are recognised in statement of income upon disposal of securities, as the difference between net disposal proceeds and the carrying amount of the securities.

Dividends are recognised when the right to receive payment is established. This applies even if they are paid out of pre-acquisition profits. However, the investment may need to be tested for impairment as a consequence. Dividend that clearly represents a recovery of part of the cost of an investment is recognised in other comprehensive income if it relates to an investment in equity investment measured at financial investments at fair value through other comprehensive income.

(r) Recognition of Financing Expenses

Finance cost and income attributable on deposits and borrowings of the Bank are recognised on an accrual basis.

The method of allocation of income to the types of deposits is based on "the Framework on Rate of Return" issued by BNM. This Framework on Rate of Return (BNM/GP2-i) which is based on the return on assets concept, calculates the income on assets. The return on assets, after deducting incidental expenses and allowances for losses on financing and advances are distributed to the depositors using the weighted average method.

(s) Foreign Currencies

(i) Functional and Presentation Currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). The financial statements are presented in Ringgit Malaysia, which is the Bank's functional and presentation currency.

(ii) Transactions and Balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in statement of income.

Changes in the fair value of monetary securities denominated in foreign currency classified as available for sale are analysed between translation differences resulting from changes in the amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in amortised cost are recognised in profit or loss, and other changes in carrying amount are recognised in other comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(t) Current and Deferred Income Tax

Income tax on the profit or loss for the financial year comprises current and deferred tax. Current tax is the expected amount of income taxes payable in respect of the taxable profit for the year and is measured using the tax rates that have been enacted at the end of the reporting date. In the event of uncertain tax position, the tax is measured using the single best estimate of the most likely outcome.

Tax is recognised in the profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in the comprehensive income or directly in equity, respectively.

Deferred tax is provided in full, using the liability method, on temporary differences at the end of the reporting date between the tax bases of assets and liabilities and their carrying amounts in the financial statements. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. Deferred tax is not recognised if the temporary difference arises from goodwill or negative goodwill or from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the end of the reporting period. Deferred tax is recognised as income or an expense in the statement of comprehensive income for the period, except when it arises from a transaction which is recognised directly in other comprehensive income or directly in equity, in which case the deferred tax is also charged or credited to other comprehensive income or to equity, or when it arises from a business combination that is an acquisition, in which case the deferred tax is included in the resulting goodwill.

Deferred and income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when deferred income tax assets and liabilities relate to taxes levied by the same tax authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

(u) Foreclosed Properties

Foreclosed properties are stated at the lower of carrying amount and fair value less costs to sell.

(v) Cash and Cash Equivalents

Cash and cash equivalents as stated in the statement of cash flows comprise cash and bank balances and short term deposits maturity within one month that are readily convertible into cash with insignificant risk of changes in value.

(w) Employee Benefits

(i) Short-Term Employee Benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees of the Bank. Short-term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences, and short-term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(Incorporated in Malaysia)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(w) Employee Benefits (contd.)

(ii) Defined Contribution Plans

Defined contribution plans are post-employment benefit plans under which the Bank pays fixed contributions into separate entities or funds and will have no legal or constructive obligations to pay further contributions if any of the funds do not hold sufficient assets to pay all employee benefits relating to employee services in the current and preceding financial years. Such contributions are recognised as an expense in the statement of comprehensive income as incurred. As required by law, companies in Malaysia make contributions to the Employees Provident Fund ("EPF").

(x) Contingent Assets and Contingent Liabilities

The Bank does not recognise contingent assets and liabilities, but disclose its existence in the financial statements. A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Bank or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in the extremely rare case where there is a liability that cannot be recognised because it cannot be measured reliably. However, contingent liabilities do not include financial guarantee contracts.

A contingent asset is a possible asset that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Bank. The Bank does not recognise contingent assets but discloses its existence where inflows of economic benefits are probable, but not virtually certain.

(y) Financial Guarantee Contracts

Financial guarantee contracts are contracts that require the Bank to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument.

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued.

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

Financial guarantee contracts are subsequently measured at the higher of the amount determined in accordance with the expected credit loss model under MFRS 9 "Financial Instruments" and the amount initially recognised less cumulative amount of income recognised in accordance with the principles of MFRS 15 "Revenue from Contracts with Customers", where appropriate.

6. DERIVATIVE FINANCIAL ASSETS/(LIABILITIES)

Derivative financial instruments are financial instruments whose values change in response to changes in prices or rates (such as foreign exchange rates, interest rates and equity prices) of the underlying instruments. These instruments allow the Bank and the banking customers to transfer, modify or reduce their foreign exchange and interest rate risk via hedge relationships. The Bank also transact in these instruments for proprietary trading purposes. The risks associated with the use of derivative financial instruments, as well as the Management's policy for controlling these risks are set out in Note 35.

The table below shows the Bank's derivative financial instruments as at the end of the financial year. The contractual or underlying notional amounts of these derivative financial instruments and their corresponding gross positive (derivative financial asset) and gross negative (derivative financial liability) fair values as at the end of the financial year are analysed below.

| | | As at | | | As at | | |

Fair value hedge

The Bank uses interest rate swaps to hedge its exposure to changes in the fair value of bonds in respect of benchmark interest rate.

The Bank's hedge accounting policy requires effective hedge relationships to be established. Hedge effectiveness is determined at the inception of the hedge relationship prospectively, and through periodic retrospective effectiveness assessment to ensure that an economic relationship exists between the hedged item and hedging instrument. The hedge effectiveness is assessed by comparing changes in the fair value of the hedged items attributable to interest rate change with changes in the fair value of the hedging instrument.

The Bank establishes the hedge ratio based on the notional and the tenure of the hedged item and hedging instrument. Hedged ineffectiveness is recognised into income statement when the fair value change in the designated component value of the hedged item exceeds the change in value of the hedging instrument attributable to the hedged risk.

(i) The amounts relating to items designated as hedging instruments and hedge ineffectiveness were as follows:

| | | Fair | value | Changes in fair value used for calculating hedge | Hedge ineffectiveness recognised in | | Average fixed |
|---|----------------|--------|-------------|--|-------------------------------------|---------------------------|---------------|
| | Nominal amount | Assets | Liabilities | ineffectiveness | profit or loss | Maturity | interest rate |

7. FINANCING AND ADVANCES (CONTD.)

(viii) Movements in credit impaired financing and advances ("impaired financing") under Stage 3

| | 2023 RM'000 | 2022 RM'000 |
|---|-----------------------|----------------------|
| At 1 April | 278,334 | 296,686 |
| Impaired during the financial year Reclassified as unimpaired during the financial year | 413,169 (186,506) | 340,327 (264,435) |
| Recovered during the financial year Financial assets derecognised other than write-off | (21,169) | (11,161) |
| during the financial year Amount written-off | (27,056) (103,938) | (43,739) (39,344) |
| At 31 March | 352,834 | 278,334 |
| | | |
| Gross impaired financing ratio | 2.82% | 2.38% |
| Net impaired financing ratio | 1.80% | 1.33% |

The Bank may write off financial assets when relevant recovery actions have been exhausted or further recovery is not economically feasible or justifiable. The outstanding contractual amounts of such assets written off during the year amounted to RM103,938,000 (2022: RM39,344,000) for the Bank. The Bank still seeks to recover amounts that are legally owed in full, but which have been partially or fully written-off and are still subject to enforcement activity.

(ix) Credit impaired financing and advances by economic purposes:

| | 2023 | 2022 |

(Incorporated in Malaysia)

7. FINANCING AND ADVANCES (CONTD.)

(xii) Movements in allowance for expected credit losses on financing and advances are as follows: (contd.)

Impact of movements in gross carrying amount on expected credit losses

2023

Stage 1 expected credit losses ("ECL") for the Bank decreased by RM30.0 million as a result of financing and advances that were fully repaid, having movement in the existing account balances during the financial year, accounts closed or migrated to Stage 2 or Stage 3 due to deterioration in credit quality. The decrease was partly offset by newly originated financing and advances, and the migration to Stage 1 from Stage 2 or Stage 3 due to the improvement in credit quality.

Stage 2 ECL increased by RM30.9 million, as a result of financing and advances migrated from Stage 1 into Stage 2, which were mainly due to the increase in credit risk observed on certain segments such as Personal Financing and Mortgages. The increase was partly offset by repayment, and accounts migrated to Stage 3 due to deterioration in credit quality and migrated to Stage 1 as a result of improved credit quality.

Stage 3 ECL for the Bank increased by RM6.6 million, as a result of financing and advances migrated to Stage 3 from Stage 1 and Stage 2 as a result of deterioration in credit quality. The increase was partly offset by the accounts written off mainly from personal financing segment, and migration of Stage 3 to Stage 1 or Stage 2 due to improvement in credit quality or account fully repaid.

Total ECL movements in 2023 is also affected by the changes in forward-looking economic inputs and the reversal of the pre-emptive overlay provisions from the estimated impacts of the COVID-19 pandemic. The overlays have been applied to determine a sufficient overall level of ECL. These overlays were taken to reflect the potential impact to delinquencies and defaults arising from escalation of credit risk.

2022

Stage 1 expected credit losses ("ECL") for the Bank increased by RM19.5 million as a result of newly originated financing and advances, and the migration to Stage 1 from Stage 2 or Stage 3 due to the improvement in credit quality. The increase was partly offset by financing and advances that were fully repaid, having movement in the existing account balances during the financial year, and accounts closed or migrated to Stage 2 or Stage 3 due to deterioration in credit quality.

Stage 2 ECL increased by RM5.0 million, as a result of financing and advances migrated from Stage 1 into Stage 2, which were mainly due to the increase in credit risk observed on certain segments of payment relief assistance ("PRA") such as personal financing and mortgages. The increase was partly offset by repayment, and accounts migrated to Stage 3 due to deterioration in credit quality and migrated to Stage 1 as a result of improved credit quality.

Stage 3 ECL for the Bank increased by RM44.4 million, as a result of financing and advances migrated to Stage 3 from Stage 1 and Stage 2 as a result of deterioration in credit quality. The increase was partly offset by the accounts written off mainly from personal financing segment, and migration of Stage 3 to Stage 1 or Stage 2 due to improvement in credit quality or account fully repaid.

Total ECL movements in 2022 is also affected by the changes in forward-looking economic inputs and increased pre-emptive overlay provisions from the estimated impacts of the COVID-19 pandemic. The overlays have been applied to determine a sufficient overall level of ECL. These overlays were taken to reflect the potential impact to delinquencies and defaults arising from escalation of credit risk on certain segments of the targeted repayment assistance financing and advances.

12. DEFERRED TAX

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred taxes relate to the same tax authority. The net deferred tax assets and liabilities shown in the statement of financial position after appropriate offsetting are as follows:

| | 2023 RM'000 | 2022 RM'000 |
|--|----------------|----------------|
| Deferred tax assets, net | 44,039 | 41,558 |
| | 2023 RM'000 | 2022 RM'000 |
| Movements on deferred tax: At 1 April | 41,558 | 22,861 |
| Recognised in statement of income (Note 28) | 489 | 5,282 |
| Recognised in equity | 1,992 | 13,415 |
| At 31 March | 44,039 | 41,558 |
| Deferred tax assets and liabilities prior to offsetting are summarised as follows: | | |
| | 2023 | 2022 |
| | RM'000 | RM'000 |
| Deferred tax assets | 44,221 | 41,681 |
| Deferred tax liabilities | (182) | (123) |
| | 44,039 | 41,558 |

The components and movements of deferred tax assets and liabilities during the financial year prior to offsetting are as follows:

19. SUBORDINATED SUKUK (CONTD.)

(b) RM130 million Subordinated Sukuk Murabahah (contd.)

The main features of the Subordinated Sukuk are as follows:

(i) Issue date: 29 April 2022

(ii) Tenure of the facility/issue: 10 years from the issue date and non-callable five (5) years after issue date

(iii) Maturity date: 29 April 2032

(iv) Coupon rate: 4.45% per annum, payable semi-annually in arrears

(v) Call date: 29 April 2027 and thereafter on every periodic payment date

- (vi) The Subordinated Sukuk constitutes direct and unsecured obligations of the issuer, subordinated in right and priority of payment, to the extent and in the manner provided in the Subordinated Sukuk, ranking pari passu among themselves.
- (vii)In the event of winding up or liquidation of the issuer, be subordinated in right of payment to all deposit liabilities and other liabilities of the issuer, except in each case to those liabilities which by their terms rank equally in right of payment with or are Subordinate to the Subordinated Sukuk.
- (c) RM100 million Additional Tier 1 Sukuk Wakalah

On 29 March 2019, the Bank issued RM100.0 million Islamic Additional Tier 1 Sukuk Wakalah ("AT1 Sukuk") of RM100.0 million in nominal value ("AT1 Sukuk Issuance") pursuant to Alliance Islamic's Sukuk Programme.

| | 2023 | 2022 |
|----------------------------------|---------|---------|
| | RM'000 | RM'000 |
| At cost | 100,000 | 100,000 |
| Accumulated unamortised discount | (199) | (387) |
| Profit accrued | 49 | 49 |
| | 99,850 | 99,662 |
| | | |

The AT1 Sukuk has been assigned a long term rating of BBB1 by RAM.

The main features of the AT1 Sukuk are as follows:

(i) Issue date: 29 March 2019

(ii) Tenure of the facility/issue: Perpetual non-callable five (5) years

(iii) Coupon rate: 5.95% per annum, payable semi-annually

(iv) Call date: 29 March 2024 and thereafter on every distribution payment date

- (v) The AT1 Sukuk constitutes direct and unsecured obligations of the issuer and are subordinated to depositors, general creditors and other holders of subordinated debt of the issuer.
- (vi) Upon the occurence of any winding up proceeding, the amount payable on the AT1 Sukuk will be subordinated in right of payment to the prior payment in full of all deposit liabilities and other liabilities of the issuer, except in each case to those liabilities which by their terms rank equally with or junior to the AT1 Sukuk.

Included in the other operating expenses are the Shariah Committee members' remuneration of RM381,000 (2022: RM399,500).

(Incorporated in Malaysia)

27. OTHER OPERATING EXPENSES (CONTD.)

The following represent a detailed breakdown of the Bank's share of the holding company's other operating expenses included within the Bank's total other operating expenses:

| | 2023 RM'000 | 2022 RM'000 |
|---|----------------|----------------|
| Sharing of Other Operating Expenses | | |
| Personnel costs | | |
| - Salaries, allowances and bonuses | 68,233 | 67,297 |
| - Contribution to EPF | 10,822 | 10,532 |
| - Others | 7,722 | 6,087 |
| | 86,777 | 83,916 |
| Establishment costs | | |
| - Rental | 344 | 489 |
| - Repairs and maintenance | 1,420 | 1,576 |
| - Water and electricity | 1,108 | 1,080 |
| - Information technology expenses | 25,023 | 22,149 |
| - Others [Note (a)] | 1,907 | 2,778 |
| | 29,802 | 28,072 |
| | | _ |
| Marketing expenses | | |
| - Promotion and advertisement | 2,905 | 288 |
| - Branding and publicity | 1,128 | 334 |
| - Others | 896 | 403 |
| | 4,929 | 1,025 |
| Administration and general | | |
| - Communication expenses | 1,200 | 1,358 |
| - Printing and stationeries | 190 | 184 |
| - Professional fees | 4,433 | 3,273 |
| - Others | 2,340 | 949 |
| | 8,163 | 5,764 |
| Total sharing of other operating expenses | 129,671 | 118,777 |
| | | |

Note (a): Being substantially cross-charge amount for using the fixed assets of the holding company. This includes computer software, computer equipment and furniture and fittings.

Included in the other operating expenses are the following:

| | 2023 RM'000 | 2022 RM'000 |
|--------------------------|----------------|----------------|
| Auditors' remuneration | | |
| - Statutory audit fees | 161 | 147 |
| - Audit related services | 258 | 49 |
| - Tax compliance works | 14 | 14 |
| - Tax related services | 9 | 7 |

(Incorporated in Malaysia)

28. TAXATION

| | 2023 RM'000 | 2022 RM'000 |
|--------------------------------|----------------|----------------|
| Income tax: | | |
| Current financial year | 56,527 | 60,379 |
| Over provision in prior years | (3,700) | (755) |
| | 52,827 | 59,624 |
| Deferred tax (Note 12) | | |
| Current financial year | (3,133) | (5,795) |
| Under provision in prior years | 2,644 | 513 |
| | (489) | (5,282) |
| | 52,338 | 54,342 |

Income tax for the current financial year is calculated at the Malaysian statutory tax rate of 24% on the estimated assessable profit for the financial year. For Year of Assessment ("YA") 2023, income tax rate is at 24% (2022: 24% on first RM100 million, 33% on excess of RM100 million).

As per the Finance Act 2021 gazetted on 31 December 2021, effective for YA 2022, a special one-off tax called "Cukai Makmur" was imposed on companies that generated chargeable income more than RM100 million as follows:

- Chargeable income for the first RM100 million will be taxed at a rate of 24%; and
- Chargeable income in excess of RM100 million will be taxed at a rate of 33%.

A reconciliation of income tax expense applicable to profit before taxation at the statutory income tax rate to income tax expense at the effective income tax rate of the Bank is as follows:

| | 2023 RM'000 | 2022 RM'000 |
|--|----------------|-----------------|
| Profit before taxation | 214,529 | 179,287 |
| Taxation at Malaysian Statutory Tax rate of 24% (2022: 24%) Additional Tax Rate of 9% in excess of RM100 million | 51,487 - | 43,029 7,136 |
| Expenses not deductible for tax purposes | 1,907 | 1,954 |
| Effect of Cukai Makmur Over provision of tax expense in prior years | (1,056) | 2,465 (242) |
| Tax expense for the financial year | 52,338 | 54,342 |

29. EARNINGS PER SHARE

Basic/diluted

Basic/diluted earnings per share is calculated by dividing profit for the financial year attributable to ordinary equity holder of the Bank by the weighted average number of ordinary shares in issue during the financial year.

| | 2023 | 2022 |
|--|---------|---------|
| Net profit for the financial year attributable to equity holder of the Bank (RM'000) | 162,191 | 124,945 |
| Weighted average numbers of ordinary shares in issue ('000) | 414,249 | 414,249 |
| Basic/diluted earnings per share (sen) | 39.2 | 30.2 |

(Incorporated in Malaysia)

30. DIVIDENDS

| | Dividend in respect of | financial year |
|--|------------------------|----------------|
| | 2023 | 2022 |
| | RM'000 | RM'000 |
| Recognised during the financial year: | | |
| First interim dividend | | |
| 5.10 sen per share on 414,249,197 ordinary shares, declared in financial year ending 31 March 2022, was paid on 16 December 2021. | | 21,127 |
| 10.42 sen per share on 414,249,197 ordinary shares, declared in financial year ending 31 March 2023, was paid on 15 December 2022. | 43,165 | <u>-</u> |
| Second interim dividend | | |
| 9.98 sen per share on 414,249,197 ordinary shares, declared in financial year ending 31 March 2022, was paid on 16 June 2022. | 41,342 | |

Subsequent to the financial year end, the Directors declared a single tier second interim dividend of 9.10 sen per share, on 414,249,197 ordinary shares amounting to approximately RM37,697,000 in respect of the current financial year. The accompanying financial statements do not reflect this dividend. The dividend will be accounted for in shareholders' equity as an appropriation of retained profits in the financial year ending 31 March 2024.

31 INTEREST RATE BENCHMARK REFORM

Financial instruments affected by Interest Rate Benchmark Reform

The table below shows the total amounts of non-derivative financial assets and derivatives financial contracts that are not subject to transition to the alternative benchmark rate that the Bank has been exposed to as at the financial year end.

| 2023 | FCY LIBOR | KLIBOR | Total |
|--|-----------|---------|---------|
| | RM'000 | RM'000 | RM'000 |
| Notional amount Derivative financial instruments | | 298,000 | 298,000 |

33. CREDIT TRANSACTIONS AND EXPOSURES WITH CONNECTED PARTIES

| | 2023 RM'000 | 2022 RM'000 |
|--|----------------|----------------|
| Outstanding credit exposures with connected parties | 115,408 | 232,594 |
| of which: Total credit exposure which is impaired or in default | 194 | 1 |
| Total credit exposures | 17,362,764 | 15,764,982 |
| Percentage of outstanding credit exposures to connected parties: | | |
| - as a proportion of total credit exposures | 0.66% | 1.48% |
| - which is impaired or in default | 0.00% | 0.00% |

The disclosure on Credit Transactions and Exposures with Connected Parties above is presented in accordance with para 9.1 of BNM's Guidelines on Credit Transactions and Exposures with Connected Parties for Islamic Banks, which became effective on 1 January 2008.

Based on these guidelines, a connected party for Islamic Banks refers to the following:

- (i) Directors of the Bank and their close relatives;
- (ii) Controlling shareholder and his or her close relatives;
- (iii) Executive officer, being a member of management having authority and responsibility for planning, directing and/or controlling the activities of the Bank, and his or her close relatives;
- (iv) Officers who are responsible for or have the authority to appraise and/or approve credit transactions or review the status of existing credit transactions, either as a member of a committee or individually, and their close relatives;
- (v) Firms, partnerships, companies or any legal entities which control, or are controlled by any person listed in (i) to (iv) above, or in which they have an interest, as a director, partner, executive officer, agent or guarantor, and their subsidiaries or entities controlled by them;
- (vi) Any person for whom the persons listed in (i) to (iv) above is a guarantor; and
- (vii) Subsidiary of or an entity controlled by the Bank and its connected parties.

Credit transactions and exposures to connected parties as disclosed above includes the extension of credit facilities and/or off-balance sheet credit exposures such as guarantees, trade-related facilities and financing commitments. It also includes holdings of equities and private debt securities issued by the connected parties.

(Incorporated in Malaysia)

34. CEO, DIRECTORS AND SHARIAH COMMITTEE MEMBERS' REMUNERATION

Remuneration in aggregate for CEO, Directors and Shariah Committee members charged to the statement of income for the financial year are as follows:

| | 2023 | 2022 |
|---------------------------------------|--------|--------|
| | RM'000 | RM'000 |
| Chief Executive Officer: | | |
| - Salary and other remuneration | 984 | 849 |
| - Bonuses | 451 | 377 |
| - Contribution to EPF | 203 | 175 |
| - Benefits-in-kind | _ | - |
| | 1,638 | 1,401 |
| Non-Executive Directors: | | |

35. FINANCIAL RISK MANAGEMENT POLICIES

The Bank engages in business activities which entail risk taking and the major types of risk involved include credit risk, liquidity risk, market risk, operational risk, technology risk and Shariah non-compliance risk.

The Bank's risk management is governed by the various risk management frameworks which cover governance, appetite, strategy, policies and processes to manage risks. The objective of risk management is to ensure the Bank conducts business in a responsible manner, to achieve sustainable growth for the Bank's balance sheet and capital.

The Bank manages risk within clearly defined guidelines that are approved by the Board of Directors. In addition, the Board of Directors of the Bank provides independent oversight to ensure that risk management policies are complied with, through a framework of established controls and reporting processes.

The guidelines and policies adopted by the Bank to manage the main risks that arise in the conduct of its business activities are as follows:

(a) Credit Risk

Credit risk is the risk of financial loss resulting from the failure of the Bank's borrowers or counterparties to fulfil their contractual obligations to repay their financing or settle commitments.

This arises from financing, advances, investment in securities amongst others. The amount of credit exposure is represented by the carrying amount of financing, advances and investment securities in the statement of financial position. The financing activities in the Bank are guided by the Bank's Credit Risk Management Framework, in line with regulatory guidelines and best practices.

Also, credit risk arises from financial transactions with counterparties (including interbank money market activities and debt instruments), of which the amount of credit exposure in respect of these instruments are equal to the carrying amount of these assets in the statement of financial position. This exposure is monitored on an ongoing basis against predetermined counterparty limits.

The credit exposure arising from off-balance sheet activities, i.e. commitments and contingencies is set out in Note 40 to the financial statements.

(Incorporated in Malaysia)

35. FINANCIAL RISK MANAGEMENT POLICIES (CONTD.)

(a) Credit Risk (contd.)

(i) Maximum exposure to credit risk

The following table presents the Bank's maximum exposure to credit risk of on-balance sheet and off-balance sheet financial instruments, before taking into account any collateral held or other credit enhancements and after allowance for expected credit losses, where appropriate.

For on-balance sheet financial assets, the maximum exposure to credit risk equals their carrying amount. For financial guarantees and similiar contracts granted, the maximum exposure to credit risk is the maximum amount that would have to be paid if the guarantees were to be called upon. For credit-related commitments and contingencies that are irrevocable over the life of the respective facilities, the maximum exposure to credit risk is the full amount of the credit facilities granted to customers.

(iii) Collaterals

The main types of collateral obtained by the Bank are as follows:

- Where property is provided as collateral, legal charged over the title;
- For hire purchase, ownership right over the vehicles or equipment; and
- For other financing, charges over business assets such as premises, financial/trade receivables, quoted shares, other financial instruments or deposits.

| | 2023 | 2022 |

| Net financing and advances | 12,079,652 | 11,278,227 |
| Percentage of collateral held for financing and advances | 69.6% | 60.7% |

(iv) Credit Risk Measurement

The Bank adopts the following judgements and assumptions on measurement of ECL:

(a) Definition of significant increase in credit risk

The Bank considers the probability of default upon initial recognition of financial asset and whether there has been a significant increase in credit risk on an ongoing basis. To assess whether there is a significant increase in credit risk, the Bank compares the risk of a default occurring on the financial asset as at the reporting date with the risk of default as at the date of initial recognition. The Bank considers available reasonable and supportable forward-looking information.

The following events are taken into consideration during the assessment:

- · Contractual payment is in arrears for 30 days or more;
- Significant downgrade of credit rating or internal rating;
- Modified exposure placed under Agensi Kaunseling dan Pengurusan Kredit ("AKPK") status;
- · Exposure being monitored under watchlist; or
- · Restructured and reschedule exposure with increase in credit risk.

(b) Definition of credit impaired financial assets

An exposure is classified as credit impaired when one or more events that have a detrimental impact to the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit impaired includes observable data about the following events:

Quantitative criteria:

A financial asset is classified as credit impaired, when the counterparty fails to make contractual payment.

(Incorporated in Malaysia)

35. FINANCIAL RISK MANAGEMENT POLICIES (CONTD.)

(a) Credit Risk (contd.)

(iv) Credit Risk Measurement (contd.)

(b) Definition of credit impaired financial assets (contd.)

Qualitative criteria:

- Significant financial difficulty of the issuer or the borrower;
- · Breach of contract such as a default of past due event;
- Concessions have been made by the lender relating to the borrower's financial difficulty;
- Indications that the borrower will enter into bankruptcy/winding up or other financial restructuring;
- · Disappearance of an active market for that financial asset; or
- Purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses.

(c) Measurement of ECL

ECL is measured by three components, i.e. exposure at default, probability of default and loss given default.

Exposure at default ("EAD")

EAD for non-retail portfolio is calculated based upon the contractual amortisation amount up to the point prior to the default event. Repayments are then assumed to cease, with only profit accrued on the outstanding balance from this point. Since the non-retail portfolio contains a variety of products with different profit accrual methods, amortisation types and repayment methods, the approaches employed to calculate EAD vary accordingly.

EAD for retail portfolio is calculated based upon either:

- (i) Simple equation based calculation approach where the outstanding balance follows a predictable trend across the amount and tenure:
- (ii) Utilisation curve model these curves provide a view of percent drawn down at the point of default, expressed as a percentage of the customer credit limit at observation; or
- (iii) Mechanical equation based approach which is utilised to forecast monthly default balances as per an amortisation profile and adjusted for different paths to default using an adjustment factor.

Probability at default ("PD")

A PD is assigned to each risk measure and represents as a percentage the likelihood of default.

For non-retail portfolio, the PD is measured from the internal or external rating of the borrower or issuer to determine the level of default risk.

For retail portfolio, a signature curve approach forecasted the lifetime PD and PD at any given time within the lifetime horizon. This is based upon historic default data using a chain ladder methodology to construct a lifetime default emergence curve.

(Incorporated in Malaysia)

35. FINANCIAL RISK MANAGEMENT POLICIES (CONTD.)

(a) Credit Risk (contd.)

(iv) Credit Risk Measurement (contd.)

(c) Measurement of Expected Credit Loss ("ECL") (contd.)

Loss given default ("LGD")

This is on a time series of probability weighted loss rate relative to the monthly exposure at default where the probabilities and loss rates are estimated by key risk driver segments such as exposure migration status (e.g. loss given cure and loss given charge off), collateral type, and defaulted exposure relative to original exposure amount and months in default.

(d) Forward-looking information

Three economic scenarios using different probability weightage are applied to the ECL:

- · Base Case based upon current economic outlook or forecast;
- Positive Case based upon a projected optimistic or positive economic outlook or forecast;
 and
- Negative Case based upon a projected pessimistic or negative economic outlook or forecast.

The negative case has been assigned with a higher weightage for the ECL as compared to the positive case.

Projection of economic scenario and the probability of each scenario happening in future shall be carried out and shall contain all macroeconomic variables ("MEV") which are applied in the ECL models as they are found to have significant correlation to increase of credit risk via the modelling exercise.

For forward-looking estimates, an analysis was carried out to determine how the estimates were affected by macroeconomic trends. Factors such as GDP growth rate, unemployment rate, consumer price index, consumption credit and producer price index and GDP growth rate were analysed to identify the level of correlation with the observed trends. Given the statistically strong correlation, the estimates were adjusted to reflect the macroeconomic trends.

The forward-looking estimates were adjusted as below:

| | Weighted Average Forecast | | | | |
|-----------------------------|---------------------------|------|------|--|--|
| MEV | 2025 | 2024 | 2023 | | |
| (% Year on Year) | % | % | % | | |
| GDP Growth Rate | 4.3 | 4.3 | 4.1 | | |
| Producer Price Index | 0.2 | 1.6 | 2.4 | | |
| Consumer Price Index | 2.2 | 2.1 | 3.2 | | |
| Industrial Production Index | 4.2 | 4.2 | 3.8 | | |
| Credit Consumption | 3.6 | 3.6 | 3.6 | | |
| Unemployment Rates | 2.5 | 2.6 | 3.0 | | |
| House Price Index | 2.5 | 2.5 | 2.4 | | |

(Incorporated in Malaysia)

35. FINANCIAL RISK MANAGEMENT POLICIES (CONTD.)

(a) Credit Risk (contd.)

(iv) Credit Risk Measurement (contd.)

(e) Grouping of exposure for ECL measured on collective basis

For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a group are homogeneous.

The appropriateness of groupings is monitored and reviewed on a periodic basis.

(f) Modification of financial assets

The Bank sometimes renegotiates or otherwise modifies the contractual cash flows of financing to customers. When this happens, the Bank assesses whether or not the new terms are substantially different to the original terms.

When the modification is not substantial and so does not result in derecognition of the original financing and advances, the Bank recalculates the gross carrying amount based on the revised cash flow of the financial asset and recognises a modification gain or loss in the statement of income. The new gross carrying amount is recalculated by discounting the modified cash flow at the original effective profit rate. The Bank monitors the subsequent performance of modified assets. The risk of default of such financings after modification are assessed and compared with the risk under the original terms at initial recognition.

The Bank may determine that the credit risk has significantly improved after restructuring, so that the assets are moved from Stage 3 or Stage 2 (Lifetime ECL) to Stage 1 (12-month ECL). This is only the case for assets which have performed in accordance with the new terms for six consecutive months or more.

If the terms are substantially different from the original terms, the Bank derecognises the original financial asset, recognises a new asset and recalculates a new effective profit rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including the purpose of determining whether a significant increase in credit risk has occurred. However, the Bank also assesses whether the new financial asset recognised is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are recognised in statement of income as gain or loss on derecognition.

(Incorporated in Malaysia)

35. FINANCIAL RISK MANAGEMENT POLICIES (CONTD.)

(a) Credit Risk (contd.)

(v) Credit Quality

The Bank assesses the credit quality for financing and advances and credit related commitment and contingencies according to the categories below.

| Credit Quality | Credit G | <u>rading</u> | <u>Definition</u> | | | |
|-----------------------|-------------------|---------------------------|--|--|--|--|
| | | Customer | | | | |
| | Scorecard | Rating | | | | |
| Low | Low risk score | 1 - 12 (AAA to BB) | Borrower with good capacity to meet financial commitments. | | | |
| Medium | Medium risk score | 13 -16 (BB- to B-) | Borrower which is in a fairly acceptable capacity to meet financial commitments. | | | |
| High | High risk score | 17 - 19 (CCC+ to CCC-) | Borrower which is in uncertain capacity to meet financial commitments but has not been impaired. | | | |
| Unrated | Unrated | Unrated | Borrower which is unrated. | | | |
| Credit Impaired | Credit Impaired | Credit Impaired | Defaulted, or judgementally impaired due to lack of capacity to fulfil financial commitments. | | | |

Other financial assets are categorised in the following manner:

| Credit Quality | Credit Rating | <u>Definition</u> | | | |
|-----------------------------|-----------------|--|--|--|--|
| Investment graded | AAA to BBB- | Issuer with low risk of defaulting principal or interest payment. | | | |
| Non-investment graded | Lower than BBB- | Issuer with medium or high risk of defaulting principal or interest payment. | | | |
| Sovereign/government backed | - | Issued or guaranteed by Malaysian Government. | | | |
| Unrated | Unrated | Issuer where rating is unavailable. | | | |
| Credit impaired | Credit impaired | Defaulted. | | | |

Other assets are classified based on days-past-due ("DPD") under the simplified model approach.

(a) Credit Risk (contd.)

(vi) Sensitivity test

The Bank has performed expected credit losses sensitivity assessment on financial assets based on the changes in key variables as below while all other variables remain unchanged. The sensitivity factors used are assumptions based on parallel shifts in the key variables to project the impact on the expected credit losses of the Bank.

The table below outlines the effect of the changes in major key variables used on expected credit losses while other variables remain constant:

| <u>2023</u> | | | |
|-----------------------------|----------------------------|---------------|---------|
| Measurement variables | MEV Change (%)/ Percentage | + | - |
| | Point Change (p.p) | RM'000 | RM'000 |
| House price index | 9.6% | (13,351) | 17,085 |
| Consumption credit | 3.7 p.p | 5,309 | (5,688) |
| Unemployment rate | 0.6 p.p | 4,478 | (4,221) |
| GDP growth | 6.4% | (1,794) | 1,463 |
| Producer price index | 3.8% | 418 | (343) |
| Industrial production index | 5.7% | (1,630) | 1,516 |
| 2022 | | | |

| Unemployment rate | 0.6 p.p | 2,514 | (2,315) |
| GDP growth | 6.2% | (1,401) | 1,247 |
| Producer price index | 3.1% | 1,035 | (912) |
| Industrial production index | 5.3% | (731) | 709 |

(Incorporated in Malaysia)

35. FINANCIAL RISK MANAGEMENT POLICIES (CONTD.)

(a) Credit Risk (contd.)

(vii) Overlays and adjustments for ECL amid COVID-19 environment

As the current MFRS 9 models are not expected to generate levels of ECL with sufficient reliability in view of the unprecedented and ongoing COVID-19 pandemic, overlays and post-model adjustments have been applied to determine a sufficient overall level of ECL for the year ended and as at 31 March 2023.

These overlays and post-model adjustments were taken to reflect the latest macroeconomic outlook not captured in the modelled outcome and the potential impact to delinquencies and defaults of the various relief and support measures.

The overlays and post-model adjustments involved significant level of judgement and reflect the Management's views of possible severities of the pandemic and paths of recovery in the forward-looking assessment for ECL estimation purposes. The adjustments remain outside the core MFRS 9 process.

As at 31 March 2023, the balances of these overlays and post-model adjustments amounted to RM109,451,000 (2022: RM187,498,000). During the year, the Bank has partially reversed the overlays and post-model adjustments after observing the satisfactory repayment trend of the borrowers and customers over a reasonable observation period.

(b) Market Risk

Market risk is the risk of loss of earnings arising from changes in profit rates, foreign exchange rates, equity prices, commodity prices and their implied volatilities.

The Bank has established a framework of risk policies, measurement methodologies and risk limits as approved by the Group Risk Management Committee ("GRMC") to manage market risk. Market risk arising from the trading activities is controlled via position limits, loss limits, sensitivity limits and valuation via daily mark-to-market, where available.

Market Risk Factors

(i) Profit rate risk

As a subset of market risk, profit rate risk refers to the volatility in net profit income as a result of changes in profit rate of return and shifts in the composition of the assets and liabilities. Rate of return risk is managed through profit rate sensitivity analysis. The sensitivity in net profit income from profit rate movement is monitored and reported to the Management. In addition to pre-scheduled meetings, Group Assets and Liabilities Management Committee ("GALCO") will also deliberate on revising the Bank's financing and deposit rates in response to changes in the benchmark rates set by the central bank.

The effects of changes in the levels of rates of return on the market value of securities are monitored closely and mark-to-market valuations are regularly reported to the Management.

The Bank is exposed to various risks associated with the effects of fluctuations in the prevailing levels of profit rates on its financial position and cash flows. The effects of changes in the levels of rates of return on the market value of securities are monitored regularly and the outcome of mark-to-market valuations are escalated to the Management regularly. The following table summarises the effective profit rates at the end of the reporting period and the periods in which the financial instruments will reprice or mature, whichever is the earlier.

35. FINANCIAL RISK MANAGEMENT POLICIES (CONTD.)

(b) Market Risk (contd.)

Market Risk Factors (contd.)

(ii) Foreign exchange risk

Foreign exchange risk refers to the risk that fair value or future cash flows of financial instruments will fluctuate because of the movements in the exchange rates for foreign exchange positions taken by the Bank from time to time.

Foreign currency exchange risk is managed via approved risk limits and open the positions are regularly revalued against current exchange rates and reported to the Management and Board.

The following table summarises the liabilities and net open position by currency as at the end of the financial reporting date, which are mainly in US Dollars and Pound Sterling. The exposure was calculated only for monetary balances denominated in currencies other than the functional currency of the Bank.

| | US Dollars RM'000 | Pound Sterling RM'000 | Total RM'000 |

35. FINANCIAL RISK MANAGEMENT POLICIES (CONTD.)

(b) Market Risk (contd.)

Market Risk Measures

(iii) Value at risk ("VaR")

VaR reflects the maximum potential loss of value of a portfolio resulting from market movements within a specified probability of occurrence (level of confidence) for a specific period of time (holding period). For the Bank, VaR is computed based on the historical simulation approach with parameters in accordance with BNM and Basel requirements. Backtesting is performed daily to validate and reassess the accuracy of the VaR model. This involves the comparison of the daily VaR values against the hypothetical profit and loss over the corresponding period.

The table below sets out a summary of the Bank's VaR profile by financial instrument types for the Trading Portfolio:

| 2022 | <u>Balance</u> RM'000 | Average for the year RM'000 | Minimum RM'000 | Maximum RM'000 |
|--|--------------------------|-----------------------------------|--------------------|--------------------|
| 2023 Government securities Private debt securities | (4,699) (1,984) | (5,148) (1,652) | (4,699) (1,417) | (5,464) (1,984) |
| | | A | | |
| | Dalamas | Average | Minimo | Massinassina |
| | <u>Balance</u> | for the year | Minimum | Maximum |
| 2022 | RM'000 | RM'000 | RM'000 | RM'000 |
| Government securities | (3,632) | (5,160) | (3,632) | (5,989) |
| Private debt securities | (1,005) | (1,282) | (1,005) | (1,449) |

(iv) Profit Rate Risk Sensitivity

The following tables present the Bank's sensitivity result for the impact on net profit after tax and reserves of financial assets and financial liabilities bearing fixed and floating profit rates.

Impact on the net profit after tax is measured using Earning-at-Risk ("EaR") methodology. The treatments are based on a set of sensitivity rate shocks on the profit rate gap profile from the financial position of the Bank by taking into consideration the repricing or remaining maturity of the product.

Impact on equity represents the changes in fair value of financial investment at fair value through other comprehensive income portfolio arising from shifts in interest/profit rate.

| | - 200 bps | + 200 bps | | |
|--------------------------------|---------------------|-----------|--|--|
| | Increase/(decrease) | | | |
| | RM'000 | RM'000 | | |
| Impact on net profit after tax | (47,519) | 47,519 | | |

| Impact on equity | 119,637 | (103,298) | | | |

(v) Other risk measures

(i) Stress test

Stress testing is normally used by banks to gauge their potential vulnerability to exceptional but plausible events. The Bank performs stress testing regularly to measure and alert the Board and the Management on the effects of potential political, economic or other disruptive events on our exposures. The Bank's stress testing process is governed by the Stress Testing Policy as approved by the Board. Stress testing is conducted on a bank-wide basis as well as on specific portfolios. The Bank's bank-wide stress testing exercise uses a variety of broad macroeconomic indicators that are then translated into stress impacts on the various business units. The results are then consolidated to provide an overall impact on the Bank's financial results and capital requirements. Stress testing results are reported to the Board and the Management to provide them with an assessment of the financial impact that such events would have on the Bank's profitability and capital levels.

(ii) Sensitivity analysis

Sensitivity analysis is used to measure the impact of changes in individual stress factors such as profit rates or foreign exchange rates. It is normally designed to isolate and quantify exposure to the underlying risk. The Bank performs sensitivity analysis such as parallel shifts of profit rates on its exposures, primarily on the banking and trading book positions.

(c) Liquidity Risk

Liquidity risk is the risk that the Bank is unable to meet financial commitments when due.

The Bank's liquidity risk profile is managed using liquidity risk management strategies set in the Liquidity Risk Management Policy. Liquidity Risk Measures are monitored against approved thresholds by GALCO and GRMC. A contingency funding plan is also established by the Bank as a forward-looking measure to ensure that liquidity risk can be addressed according to the degrees of key risk indicators, and which incorporates alternative funding strategies which are ready to be implemented on a timely basis to mitigate the impact of unforeseen adverse changes in liquidity in the market place.

(Incorporated in Malaysia)

35. FINANCIAL RISK MANAGEMENT POLICIES (CONTD.)

(c) Liquidity risk (contd.)

Liquidity Risk Measures

(i) Liquidity risk for assets and liabilities based on remaining contractual maturities

The maturities of on-balance sheet assets and liabilities as well as other off-balance sheet assets and liabilities, commitments and counter-guarantees are important factors in assessing the liquidity of the Bank. The table below provides an analysis of assets and liabilities into relevant maturity terms based on remaining contractual maturities:

| 2023 | Up to <u>1 month</u> RM'000 | >1-3 <u>months</u> RM'000 | >3-6 <u>months</u> RM'000 | >6-12 <u>months</u> RM'000 | <u>>1 year</u> RM'000 | No specific <u>maturity</u> RM'000 | <u>Total</u> RM'000 |
|---|-----------------------------------|---------------------------------|---------------------------------|----------------------------------|-----------------------------|--|------------------------|

35. FINANCIAL RISK MANAGEMENT POLICIES (CONTD.)

(c) Liquidity risk (contd.)

Liquidity Risk Measures (contd.)

(i) Liquidity risk for assets and liabilities based on remaining contractual maturities (contd.)

The maturities of on-balance sheet assets and liabilities as well as other off-balance sheet assets and liabilities, commitments and counter-guarantees are important factors in assessing the liquidity of the Bank. The table below provides an analysis of assets and liabilities into relevant maturity terms based on remaining contractual maturities: (contd.)

| | Up to | >1-3 | >3-6 | >6-12 | | No specific | |

35. FINANCIAL RISK MANAGEMENT POLICIES (CONTD.)

(d) Operational and Shariah Non-Compliance Risk

Operational risk is the risk of direct or indirect loss resulting from inadequate or failed internal processes, people and systems or from external events. The definition of operational risk includes legal risk, but excludes strategic and reputational risk. Operational risk includes Shariah non-compliance risk which arises from the Bank's failure to comply with the Shariah rules and principles determined by the relevant Shariah advisory councils or AIS's Shariah Committee.

Group Operational Risk of Group Risk Management formulates and implements operational risk framework within the Bank while the line of businesses in conjunction with the Risk and Compliance Officers are responsible for the management of their day-to-day operational and Shariah non-compliance risks

Operational and Shariah non-compliance risk management is a continual cyclic process which includes risk identification, assessment, control, mitigation and monitoring. This includes analysing the risk profile of the Bank, determining control gaps, assessing potential loss and enhancing controls to mitigate the risks.

The main activities undertaken by the Bank in managing operational and Shariah non-compliance risks include the identification of risks and controls, monitoring of key risk indicators, reviews of policies and procedures, operational risk and Shariah non-compliance risk awareness training, and business continuity management.

The Bank applies the Basic Indicator Approach for operational risk capital charge computation.

36. CAPITAL COMMITMENTS

| | 2023 | 2022 |
|-----------------------------------|--------|--------|
| | RM'000 | RM'000 |
| Capital expenditure: | | |
| Authorised and contracted for | 467 | 492 |
| Authorised and not contracted for | 74 | 1,098 |
| | 541 | 1,590 |
| | | |

The capital commitments mainly consist of computer software and property, plant and equipment.

37. HOLDING AND RELATED COMPANIES

The holding company of the Bank is Alliance Bank Malaysia Berhad, a bank incorporated in Malaysia and listed on the Main Market of Bursa Malaysia Securities Berhad.

Related companies in these financial statements refer to member companies in Alliance Bank Malaysia Berhad.

(Incorporated in Malaysia)

38. CAPITAL ADEQUACY

BNM's Transitional Arrangements for Regulatory Capital Treatment of Accounting Provisions took effect on 9 December 2020. This allows the Bank to add back a portion of Stage 1 ("S1") and Stage 2 ("S2") provisions with an "add-back factor" to the Common Equity Tier I ("CET I") capital from Financial Year 2021 to Financial Year 2024. The Bank has sufficient capital under both conditions with or without the Transitional Arrangement.

The capital adequacy ratios with and without transitional arrangements of the Bank are as follows:

| (i) With transitional arrangements | 2023 | 2022 |
|--|-------------------------------|-------------------------------|
| Before deducting proposed dividends CET 1 capital ratio Tier 1 capital ratio Total capital ratio | 13.717% 14.694% 17.122% | 14.904% 15.966% 18.510% |
| After deducting proposed dividends CET 1 capital ratio Tier 1 capital ratio Total capital ratio | 13.715% 14.692% 17.120% | 14.463% 15.525% 18.069% |
| (ii) Without transitional arrangements | | |
| Before deducting proposed dividends CET 1 capital ratio Tier 1 capital ratio Total capital ratio | 12.401% 13.377% 15.806% | 12.995% 14.057% 16.601% |
| After deducting proposed dividends CET 1 capital ratio Tier 1 capital ratio Total capital ratio | 12.399% 13.375% 15.804% | 12.554% 13.616% 16.160% |

Note:

The capital adequacy ratios after deducting proposed dividends have included the Rights Issue as disclosed in Note 44 to the financial statement.

(Incorporated in Malaysia)

38. CAPITAL ADEQUACY (CONTD.)

(a) Components of Common Equity Tier I ("CET I"), Tier I and Tier II capital under the Capital Adequacy Framework with transitional arrangements are as follows:

| | 2023 RM'000 | 2022 RM'000 |
|--|----------------|----------------|
| CET I Capital | | |
| Paid-up share capital | 600,000 | 600,000 |
| Retained profits | 727,052 | 668,707 |
| Regulatory reserves | 19,339 | - |
| FVOCI reserves | (13,817) | (7,509) |
| | 1,332,574 | 1,261,198 |
| (Less)/add: Regulatory adjustments | | |
| - Intangible assets | (2,045) | (1,444) |
| - Deferred tax assets | (44,039) | (41,558) |
| - Regulatory reserves | (19,339) | - |
| - Transitional arrangements | 134,523 | 178,984 |
| Total CET I Capital | 1,401,674 | 1,397,180 |
| Additional Tier 1 Sukuk Wakalah | 99,801 | 99,613 |
| Total Additional Tier 1 Capital | 99,801 | 99,613 |
| | | |
| Total Tier I Capital | 1,501,475 | 1,496,793 |
| Tier II Capital | | |
| Subordinated Sukuk Murabahah | 130,000 | 129,943 |
| Expected credit losses and regulatory reserves | 118,121 | 108,506 |
| Total Tier II Capital | 248,121 | 238,449 |
| | | |
| Total Capital | 1,749,596 | 1,735,242 |

(b) The breakdown of risk-weighted assets ("RWA") by exposure in each major risk category are as follows:

| | 2023 RM'000 | 2022 RM'000 |
|------------------------------------|----------------|----------------|
| Credit risk | 9,449,676 | 8,680,495 |
| Market risk | 123 | 58 |
| Operational risk | 768,617 | 694,112 |
| Total RWA and capital requirements | 10,218,416 | 9,374,665 |

Detailed information on the above risk exposure is presented in the Bank's Pillar 3 Report.

39. CAPITAL

The capital management of Alliance Islamic Bank Berhad is under the purview of Alliance Bank Group's ("the Group") capital management with the objectives:

- to maintain sufficient capital resources to meet the regulatory capital requirements as set forth by BNM;
- to maintain sufficient capital resources to support the Group's risk appetite and to enable future business growth; and
- to meet the expectations of key stakeholders, including shareholders, investors, regulators and rating agencies.

(Incorporated in Malaysia)

39. CAPITAL (CONTD.)

In line with this, the Bank aims to maintain capital adequacy ratios that are comfortably above the regulatory requirement, while balancing shareholders' desire for sustainable returns and high standards of prudence.

The Bank carries out stress testing to estimate the potential impact of extreme, but plausible, events on the Bank's earnings, balance sheet and capital. The results of the stress test are to facilitate the formation of action plan(s) in advance if the stress test reveals that the Group's capital will be adversely affected. The results of the stress test are tabled to the Group Risk Management Committee for approval.

The Bank's regulatory capital is determined under BNM's Capital Adequacy Framework and their capital ratio complied with the prescribed capital adequacy ratios.

40. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Bank makes various commitments and incurs certain contingent liabilities with legal recourse to their customers. No material losses are anticipated as a result of these transactions.

The notional amounts of the commitments and contingencies of the Bank are as follows:

| | 2023 RM'000 | 2022 RM'000 |
|---|----------------|----------------|
| Credit-related exposures | | |
| Direct credit substitutes [Note (a)] | 81,609 | 70,235 |
| Transaction-related contingent items [Note (a)] | 72,678 | 61,208 |
| Short-term self-liquidating trade-related contingencies | 17,760 | 19,250 |
| Forward assets purchase | 15,000 | - |
| Irrevocable commitments to extend credit: | | |
| - maturity exceeding one year | 495,519 | 283,555 |
| - maturity not exceeding one year | 2,512,133 | 2,003,204 |
| | 3,194,699 | 2,437,452 |
| Derivative financial instruments [Note (b)] | | |
| Interest rate related contracts: | | |
| - over three years | 298,000 | _ |
| | 3,492,699 | 2,437,452 |

Note:

- (a) Included in direct credit substitutes and transaction-related contingent items are financial guarantee contract of RM81,685,000 (2022: RM70,131,000).
- (b) These derivatives are valued on gross position basis and the unrealised gains or losses have been reflected in the statement of income and statement of financial position as derivatives financial assets and derivatives financial liabilities. The fair value of derivatives are disclosed under Note 6.

(Incorporated in Malaysia)

41. FAIR VALUE MEASUREMENTS

(a) Determination of fair value and the fair value hierarchy

MFRS 13 Fair Value Measurement requires disclosure of financial instruments measured at fair value to be categorised according to a hierarchy of valuation techniques, whether the inputs used are observable or unobservable. The following levels of hierarchy are used for determining and disclosing the fair value of the financial instruments:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Bank recognise transfers between levels of the fair value hierarchy at the end of the reporting period during which the transfer has occurred. The fair value of an asset to be transferred between levels is determined as of the date of the event or change in circumstances that caused the transfer.

(i) Financial instruments in Level 1

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange and those prices represent actual and regularly occurring market transactions on an arm's length basis. This includes listed equities and corporate debt securities which are actively traded.

(ii) Financial instruments in Level 2

Where fair value is determined using quoted prices in less active markets or quoted prices for similar assets and liabilities, such instruments are generally classified as Level 2. In cases where quoted prices are generally not available, the Bank then determine fair value based upon valuation techniques that use market parameters, including but not limited to yield curves, volatilities and foreign exchange rates, as inputs. The majority of valuation techniques employ only observable market data and so reliability of the fair value measurement is high. These would include government securities, corporate private debt securities, corporate notes and repurchase agreements.

(iii) Financial instruments in Level 3

The Bank classifies financial instruments as Level 3 when there is reliance on unobservable inputs to the valuation model attributing to a significant contribution to the instrument value. Valuation reserves or pricing adjustments where applicable will be used to converge to fair value.

The valuation techniques and inputs used generally depend on the contractual terms and the risks inherent in the instrument as well as the availability of pricing information in the market. Principal techniques used include discounted cash flows, and other appropriate valuation models.

(Incorporated in Malaysia)

41. FAIR VALUE MEASUREMENTS (CONTD.)

(b) Financial instruments measured at fair value and the fair value hierarchy

The following tables show the Bank's financial instruments which are measured at fair value at the reporting date analysed by the various levels within the fair value hierarchy:

| 2023 | <u>Level 1</u> RM'000 | <u>Level 2</u> RM'000 | <u>Level 3</u> RM'000 | <u>Total</u> RM'000 |
|---|--------------------------|--------------------------|--------------------------|------------------------|
| Financial assets Financial investment at fair value through other comprehensive income | | | | |
| Money Market Instruments Unquoted Securities | - | 454,512 1,297,876 | - | 454,512 1,297,876 |
| Derivative financial assets | | 25 | | 25 |
| <u>Liabilities</u> Derivative financial liabilities | | 2,496 | - | 2,496 |
| 2022 | | | | |
| Financial assets Financial investment at fair value through other comprehensive income - Money Market Instruments - Unquoted Securities | - - | 507,192 1,361,572 | <u>-</u> - | 507,192 1,361,572 |

There were no transfers between Level 1 and 2 of the fair value hierarchy for the Bank during the financial years ended 31 March 2023 and 31 March 2022.

(c) Fair values of financial instruments not carried at fair value

The following table summarises the carrying amounts and the fair values of financial instruments of the Bank which are not carried at fair value in the statement of financial position. It does not include those short term/on demand financial assets and liabilities where the carrying amounts are reasonable approximate to their fair values.

| | | Carrying | | | |
|---|---------|------------|------------|--------------|---------------|
| | Level 1 | Level 2 | Level 3 | <u>Total</u> | <u>amount</u> |
| 2023 | RM'000 | RM'000 | RM'000 | RM'000 | RM'000 |
| Financial assets Financial investments | | | | | |

41 FAIR VALUE MEASUREMENTS (CONTD.)

(c) Fair values of financial instruments not carried at fair value (contd.)

2022

| Financial assets Financial investments | | | | | |
|--|---|------------|------------|------------|------------|
| at amortised cost | - | 208,963 | - | 208,963 | 210,114 |
| Financing and advances | - | - | 11,472,610 | 11,472,610 | 11,332,012 |
| Financial liabilities | | | | | |
| Deposits from customers | - | 12,613,521 | - | 12,613,521 | 12,612,943 |
| Deposits and placements | | | | | |
| of banks and other | | | | | |
| financial institutions | - | 212,831 | - | 212,831 | 216,232 |
| Recourse obligation on | | | | | |
| financing sold to Cagamas | - | 349,815 | - | 349,815 | 350,449 |
| Subordinated Sukuk | | 229,556 | | 229,556 | 229,664 |

The methods and assumptions used in estimating the fair values of financial instruments are as follows:

(i) Financing investments at amortised cost

The fair values are estimated based on quoted or observable market prices at the end of the reporting period. Where such quoted or observable market prices are not available, the fair values are estimated using pricing models or discounted cash flow techniques. Where discounted cash flow technique is used, the expected future cash flows are discounted using prevailing market rates for a similar instrument at the end of the reporting period.

(ii) Financing and advances

The fair values of fixed rate financing with remaining maturity of less than one year and variable rate financing are estimated to approximate their carrying values. For fixed rate financing with remaining maturity of more than one year, the fair values are estimated based on expected future cash flows of contractual instalment payments and discounted at applicable prevailing rates at the end of reporting period offered to new borrowers with similar credit profiles. In respect of impaired financing, the fair values represented by their carrying values, net of impairment allowances, being the expected recoverable amount.

(iii) Deposits from customers, deposits and placements of banks and other financial institutions

The fair values of deposit liabilities payable on demand (demand and savings deposits), or deposits with maturity of less than one year are estimated to approximate their carrying amounts. The fair values of investment accounts with remaining maturities of more than one year are estimated based on expected future cash flows discounted at applicable prevailing rates offered for deposits of similar remaining maturities. For negotiable islamic debt certificate, the fair values are estimated based on quoted or observable market prices as at the end of the reporting period. Where such quoted or observable market prices are not available, the fair values of negotiable instruments of deposits are estimated using the discounted cash flow technique.

(iv) Recourse obligations on financing sold to Cagamas

The fair values of recourse obligations on financing sold to Cagamas are determined based on the discounted cash flows of future instalment payments at applicable prevailing Cagamas rates as at the end of the reporting period.

(v) Subordinated Sukuk

The fair value of the subordinated sukuk is estimated based on the discounted cash flows techniques using the current yield curve appropriate for the remaining term to maturity.

42. Offsetting Financial Assets And Financial Liabilities

In accordance with MFRS 132 Financial Instruments: Presentation, the Bank reports financial assets and financial liabilities on a net basis on the statement of financial position, only if there is a legally enforceable right to set off the recognised amounts and there is intention to settle on a net basis, or to realise the asset and settle the liability simultaneously. The following table shows the impact of netting arrangements on:

- (i) all financial assets and liabilities that are reported net on the statement of financial position; and
- (ii) all financial assets and liabilities that are subject to enforceable master netting arrangements or similar agreements, but do not qualify for statement of financial position netting.

(a) Financial assets

| | 0 | Gross amounts of recognised financial liabilities set | Net amounts of financial assets | Related amounts not set off in the statement | | | |
|-----------------------------|------------------|---|--|--|------------|--------|--|
| | Gross | off in the | presented in _ | of financial | position | | |
| | amounts | statement of | the statement | | Cash | | |
| | of recognised | financial | of financial | Financial | collateral | Net | |
| | financial assets | position | position | instruments | received | amount | |
| | RM'000 | RM'000 | RM'000 | RM'000 | RM'000 | RM'000 | |
| BANK | | | | | | | |
| 31 March 2023 | | | | | | | |
| Derivative financial assets | 25 | | 25 | | | 25 | |
| 31 March 2022 | | | | | | | |
| Derivative financial assets | | | | | <u> </u> | | |

(b) Financial liabilities

| | | Gross amounts of recognised financial | Net amounts of financial | Related amo | unte not | |
|----------------------------------|-----------------------|--|--------------------------------|--------------------------|------------|---------|
| | | assets set | liabilities | set off in the statement | | |
| | Gross | off in the | presented in _ | of financial position | | |
| | amounts | statement of | the statement | | Cash | |
| | of recognised | financial | of financial | Financial | collateral | Net |
| | financial liabilities | position | position | instruments | pledged | amount |
| | RM'000 | RM'000 | RM'000 | RM'000 | RM'000 | RM'000 |
| BANK | | | | | | |
| 31 March 2023 | | | | | | |
| Derivative financial liabilities | (2,496) | - | (2,496) | - | - | (2,496) |
| 31 March 2022 | | | | | | |
| Derivative financial liabilities | <u> </u> | | | | | - |

For the financial assets and liabilities subject to enforceable master netting arrangements or similar arrangements, each agreement between the Bank and the counterparty allows for net settlement of the relevant financial assets and liabilities when both elect to settle on a net basis. In the absence of such an election, financial assets and liabilities will be settled on a gross basis, however, each party to the master netting agreement or similar agreement will have the option to settle all such amounts on a net basis in the event of default of the other party.
