DISCUSSION

Now, I have a great job, I had learnt much things about saving and ways to

spend my money. I also had a lot of saving in my account for my future use

Ways for spending my money:

- 1) When I have money, I will plan how to spend them.
- 2) I will separate them for different parts.

- 3) I will spend one part of them to buy groceries that I need.
- 4) I also spend a part for food.
- 5) I keep half of my money in alliance bank.
- 6) I gave the less for my father.

I help my father sold his durian online and we have good respond, my dad have his own saving and his spending plan too.

Now, I live
in a beautiful
house with
my dad

I even
had the
money to
travel
around
the world
with him!

I feel

Proud of
myself
and my
dad was
happy about
my success

I am glad
that I had
spend my
money wise
and save it
in the bank
