1. What is Murabahah Trust Receipt-i?

- Murabahah Trust Receipt-i ("MTR-i") is a facility offered to finance imports and local purchases of goods that are not prohibited by Shariah.
- The applicable Shariah contract is Murabahah to the Purchase Orderer (MPO). Murabahah refers to a sale and purchase of an asset where the acquisition cost and the profit margin (mark-up) are disclosed to the purchaser.
- MPO refers to an arrangement whereby the purchase orderer (purchaser i.e. Customer) promises (Wa'd) to purchase an identified and specified asset from a seller (i.e. the Bank) on Murabahah terms after the Bank has acquired the asset at the customer's request. MTR-i enables a buyer/importer to take delivery of goods prior to payment to the supplier.
- The Bank retains the legal title to the goods but relinquishes physical possession to the buyer/importer of the goods that acts as the trustee or agent to the Bank. The buyer/importer will dispose of the goods through sale to its customers and utilise the sale proceeds to pay the amount due to the Bank on or before the maturity date of the MTR-i financing transaction.

If you wish to settle your financing early before maturity, you should know that:

If you make a partial payment prior to the maturity of the financing ("pre-payment"), your liability will reduce accordingly as profit for the remaining tenure after pre-payment will be calculated based on the lower principal balance. If you fully settle the financing prior to the maturity date ("early settlement"), the Bank will not collect profit for the remaining tenure after settlement. The Bank will grant rebate (*ibra*) on the Selling Price (total obligation for the financing) due to the pre-payment/early settlement based on the formulas as set out below in the event of any of the following scenarios:

- Early redemption / settlement, where the customer has given prior written notice to the Bank;
- Settlement due to restructuring of the Facility;
- Settlement by customer where the Facility is in default / after the Bank executed foreclosure proceedings and auctioned the asset

- pledged as collateral;
iv. Settlement by customer in the event of termination or cancellation of Facility before the maturity date.

Formula:

Settlement Amount = Outstanding Facility Amount + Profit due – rebate (ibra') + Late Payment Charges (if any) + Miscellaneous charges (if any) Where: **Rebate (ibra') = Deferred profit – Early Settlement Charges (if any)**

Note: The remaining unearned profit is equal to unrealised profit at the time of full settlement.
